

NEW ANTI-SMUGGLING DRIVE STARTS

SHIP ON REEF IS BREAKING UP

Twenty-nine Men Aboard Ss. Indiana Harbor Off North California Are in Danger

Latest Reports Do Not Make Plain if Rescue Possible

Portland, Ore., May 19.—The steamship Indiana Harbor, aground on a reef ten miles south of Point Gorda on the northern California coast, was breaking up under a pounding surf to-day, according to advices to the Portland Merchants' Exchange. No mention of the fate of the crew of twenty-nine was made in the message.

AID NEEDED.

San Francisco, May 19.—The steamship Indiana Harbor, aground near Point Gorda, Northern California, is in a "bad place" and her crew of twenty-six men can not be rescued without shore aid, according to the latest radio message from the scene of the mishap. The radio was received from the British steamship Hauraki.

DEATHS OF FORTY MOURNED BY DISTRICT

Group Funeral Planned For Bath, Michigan, Children Killed by Maniac

Bath, Mich., May 19.—One-fourth of the children of this village are dead and many more injured, and the hand of tragedy has reached into virtually every one of the 100 homes of the community as a result of a plot of a demented farmer.

Among the forty-one victims of the blasting of the village schoolhouse yesterday was the perpetrator of the tragedy there and at his own home, where he killed his wife, Andrew Kehoe, forty-five-year-old farmer, who once was known as a man of brilliance in the community, but whose mind had been diverted to schemes of revenge against the school board because of anger over a school tax levied against him.

Kehoe was a member of the board.

FORTY INJURED.

Of the forty-one who were killed at the school, thirty-six were pupils in the school building, which was wrecked.

Communist Chiefs Meeting in Moscow

Moscow, May 19.—The danger of war and means of combating it are on the programme for discussion by the executive committee of the Communist International, which met here to-day. During the several days' sessions the Chinese revolution will also be discussed.

The committee is expected to issue a summons for the Sixth World Congress of the Communist International.

CHIEF JUSTICE SCORES COURSE OF VANCOUVER LAWYER

Vancouver, May 19.—Failure of Joseph Edward Bird, Vancouver barrister, to comply with an undertaking to pay \$20 a week to Jane Flavia Kean on behalf of her husband, Arthur D. Kean, resulted in Supreme Court ordering the lawyer's commitment for contempt of court.

The chief justice said he did not think Mr. Bird fully appreciated the undertaking he had given on behalf of his client to Judge Cayley in county court.

The order for commitment, stated the chief justice, would be suspended for one month to enable Mr. Bird to take whatever action he deemed advisable.

If Mr. Bird should pay the money he would not, of course, be committed.

The arrears, according to Mrs. Kean total \$585, and since September 20, 1926, her husband has paid her no more than \$75.

BRITISH VISIT OF DOUMERGUE ENDS

President Returns to France After Events in London

London, May 19.—President Doumergue of France to-day concluded his state visit to Great Britain, where he had been the busy recipient of numerous honors during the last three days.

Accompanied by Foreign Minister Briand, he entrained for Dover after cordial farewells from the King, the Prince of Wales, Prince Henry, the Duke of Connaught and others.

M. Briand and the Foreign Secretary, Sir Austen Chamberlain, conversed earnestly for some moments before the presidential party went aboard the train.

JUNE 27 IS RUMORED DATE OF ELECTION IN MANITOBA

Winnipeg, May 19.—No date has been set officially for the Manitoba provincial election, but it is believed in some quarters the voters will go to the polls on June 27. It is thought the electors will register their opinion on the beer bills at the same time that they vote for their candidates for the Legislature.

SIR E. HOWARD VISITS SEATTLE

British Ambassador to U.S. to Address Victoria Canadian Club Saturday

Seattle, May 19.—Sir Esme Howard, British Ambassador to the United States, arrived here to-day for a two-day visit. He is accompanied by his wife, Lady Isabella Howard.

From Seattle the party will go to Victoria and return to Washington, D.C., by way of Vancouver.

Sir Esme said to-day he had never seen the Canadian Rockies, but had always wanted a sight of "these wonderful mountains."

The party will leave Seattle Saturday.

The Ambassador, in an interview, expressed appreciation of the "hands off" attitude of the United States in European affairs.

NO LEAGUE MEMBERSHIP.

"Until Europe proves she is worthy of the confidence of this country by establishing a basis that makes such another conflict as the World War impossible," he said, "I believe the United States will continue to stand aside from anything like the League of Nations."

"The best thing for the world is that there should be a good understanding and a real friendship between two countries, but without any written agreements that would place obligations upon either of us."

He expressed the opinion that the situation in China would "work itself out."

Sir Esme Howard is to address the Victoria Canadian Club Saturday night.

APPEAL COURT TO OPEN HERE JUNE 7

Judgment Will be Handed Down on Thirteen Cases

The British Columbia Appeal Court will commence its sitting in Victoria June 7. Judgment will be handed down on thirteen cases argued before the court in Vancouver in March on which judgment was reserved. Cases on which judgments are to be given are as follows:

Jones vs. Pacific Stages.
Manning & Nickerson.
Ketchen vs. The King.
Shirlington vs. Duffin Singh.
Johnston vs. McMorran.
Lawson vs. Thomas.
Rex vs. Wah Sing Chow.
Minister of Customs vs. Bradshaw.
Rex vs. Constitutional Questions.
Goose Miller vs. Devine.
Rex vs. Sankey.
Brown vs. Brown.
Sproule vs. Clements.

NUNGESSER SEARCH REPORTED FUTILE

Plane Finds no Trace of Air-men on Shore of St. Lawrence Gulf

Quebec, May 19.—The Quebec Government hydroaeroplane which has been searching for the missing French aviators, Captains Nungesser and Gail along the north shore of the Gulf of St. Lawrence and in Labrador, reported to-day no trace had been found of the aeroplane.

The plane is proceeding to Harrington, Labrador, to-day.

Plymouth, Eng., May 19.—Search of the Irish Sea and the approach to the English Channel by the destroyer Sea Wolf for possible traces of wreckage from the missing French Transatlantic aeroplane White Bird, was ordered to-day by the commander of the Plymouth naval station.

The order followed yesterday's discovery of a bottle in the Channel near Falmouth, containing an alleged message from Captain Nungesser, saying the plane had come down off the Irish coast because of engine trouble.

The alleged bottle message was signed "W. H. Nungesser," the missing French flier's given name being Charles Eugene Jules Marie.

London dispatches last night said the message was a hoax.

TOWN IN IDAHO UNDER WATER

Idaho Falls, Ida., May 19.—The town of Theda, Idaho, twenty-two miles up the Snake River from here, was under twelve feet of water at 7 o'clock this morning, with the water still rising, the operator in charge of the Mountain States Telephone Company reported to the Associated Press here.

PINEDO PLANE IS AT RIMOUSKI, QUE.

Fog Interrupts Italians' Flight From Quebec City to Ship-pigan, N.B.

Father Point, Que., May 19.—Commander F. de Pinedo, attempting to fly from Quebec to Shipigan, N.B., en route to Newfoundland, alighted in Rimouski Harbor at 1:20 this afternoon. It is thought he was compelled to land because of the foggy weather.

Rimouski is a town on the south shore of the St. Lawrence River, about halfway between the city of Quebec and the mouth of the river.

Shipigan is a town in Gloucester County, on the north eastern shore of New Brunswick.

It is the intention of Pinedo and his companions to fly from New Brunswick to Newfoundland and take from there for a transatlantic flight.

The Pinedo party, starting from Sardinia, flew to West Africa and from there across the South Atlantic to Brazil. After visiting Argentina, the men flew their plane north to the United States. At Lake Roosevelt, Arizona, the plane was destroyed by fire.

A new machine was sent out from Italy and in it Pinedo and his companions started from New York. They flew to Chicago and Montreal, and to-day, as indicated, they are at the St. Lawrence River. It is their hope to end their long flight in Italy.

FACTIONS AT HANKOW PREPARE TO FIGHT

Trade There Paralyzed; Many Chinese Flee to Foreign District

London, May 19.—Official British advices from China to-day, reporting the declaration of martial law in Hankow on Tuesday, said uneasiness was increasing throughout the district as various semi-independent military leaders were threatening actively to oppose the Hankow Nationalist regime.

The situation as regarded trade and commerce in Hankow was described as chaotic.

General activity by the Chinese authorities against the Reds continues. The Yunnan Provincial Government has issued a proclamation giving all communists ten days in which to surrender. Many arrests have already been made.

CLASHES EXPECTED.

Shanghai, May 19.—Wireless messages from Hankow to-day reported continued uneasiness among the Chinese there, many of them crowding into the foreign district. Clashes were expected momentarily between Radicals and Anti-Red troops concentrated at the Chinese racetrack outside the city. Other Anti-radical forces were said to be twenty miles from Hankow, marching on the city.

Direct reports from Hankow Wednesday, told of reports of an imminent attack on the city by former Hankowites who had joined the cause of General Chiang Kai-Shek. Moderate Nationalist leader. It was said the former Hankowites were twenty miles south of Hankow and that many of the Chinese were leaving the city, fearing outbreaks.

Eugene Chen, leader of the Hankow Nationalists, was represented as branding the reports of the enemy troop movements as entirely false. He said the only basis for them was an unauthorized movement of a minor force near the Hunan-Hupoh border.

Vancover Voters' Lists Are Reduced

Vancouver, May 19.—Approximately 600 names have been struck from the Vancouver city provincial election lists as the result of objections heard by Registrar J. Mahoney in the Court of Revision since Monday.

The court has been occupied chiefly with the hearing of objections, of which there is a total of 1,392.

RETURNS TO FIGHT TRADE UNION BILL IN BRITISH HOUSE

Mr. Ramsay MacDonald

Mr. Ramsay MacDonald, Labor leader and former Premier of Great Britain, is now a ship passenger nearing the shores of Great Britain on his return from his brief visit in the United States. He is going back to take his seat in the House of Commons to lead his followers in their fight against the Baldwin Government's Trades Union Bill. The picture above is the latest of Mr. MacDonald received in Victoria. It was taken in New York just before he sailed for home.

PREMIER WILL BE TAKEN TO HAMILTON

Premier Oliver's condition has shown marked improvement in the last few days, advices received here to-day from Rochester, Minn., indicated. Dr. Robert Oliver, who is with his father, telegraphed that the Premier would be moved to Hamilton in the next few days. From Hamilton he will travel alone to the Coast when he has recovered sufficiently to make the trip. At present the Premier is sitting up and is gaining strength rapidly.

OTTAWA-WINNIPEG FLIGHT

Ottawa, May 19.—Kenneth Guthrie, Royal Canadian Air Force pilot and nephew of Hon. Hugh Guthrie, Federal House leader of the Conservative Party, will take off from Ottawa to-morrow to fly to Winnipeg. He made a flight from Montreal to Ottawa yesterday. The plane he is flying used to be in the Royal Canadian Air Force service in Western Canada.

New "Easy to Read" Type in Times Wins High Commendation

Many expressions of approval have been passed upon the new type which The Victoria Daily Times has secured to maintain the high standard of efficiency in newspaper production. Every one of the modern linotypes and intertypes used in setting up news has been changed to produce a No. 5 Ionic line which is accepted as the clearest type it is possible to obtain for newspaper readers with due regard to the conservation of space so that news can be published as fully as possible.

The new type was used for the first time this week. It is the latest production of type foundries who make "easy to read" their objective.

SLOGANS TO BE CHOSEN FOR CANADA'S JUBILEE EVENTS

Ottawa, May 19.—Details of the slogan contest instituted by the National Committee for the Celebration of the Jubilee of Confederation have been worked out. Two sets of gold, silver and bronze medals are offered "for the best slogan that will convey the spirit of Canadian progress and be appropriate for use in this year of jubilee and thereafter," one set to be awarded to the three best slogans in English and one for the three best slogans in French.

The slogans are to be sent to the National Jubilee Committee, Ottawa.

SEEK ALTERNATIVE ROUTE TO MALAHAT

Engineers to Study Possibility of Road Through Hills West of Highway

Looking to Future, Officials Plan New Artery For Island Travel

Location of a new main island road to be used as an alternative to the Malahat Highway at some time in the future when traffic warrants it will be mapped out by engineers of the Public Works Department this summer, it was announced to-day.

A route running from Goldstream through the hills to the west of the Malahat is proposed as a solution of the island's rapidly-increasing traffic problem. Experts will study the topography of the land lying in these areas and endeavor to find a route which would offer satisfactory grades, and, above all, good alignment.

WILL BE INADEQUATE.

The purpose of this investigation, which foreshadows one of the most important road projects ever undertaken in the island, is to prepare for the future needs of traffic. Engineers foresee the day when the present Malahat Road will be inadequate to handle the island's movement of travel on account of its narrow and curving character. To widen the road sufficiently to care for the traffic needs of the future would be impracticable, it is believed, although operations under way now will make it safer and more comfortable than ever before. Officials are looking forward to the day when travel will dwarf the present movement and make an entirely new route essential.

PLAN STRAIGHT ROAD.

Preliminary surveys have convinced engineers that west of the Malahat a route could be found which would solve this problem. The proposed road would run more or less parallel with the Malahat, and would rejoin the island Highway after it had dropped down again to sea level, but its precise location has yet to be determined. Not having a serious problem like the sheer walls of rock above Saanich which contend with engineers believe they could make the new road relatively straight and broad, capable of carrying the largest trucks and buses without difficulty.

FOR THE FUTURE.

This scheme, of course, is not designed for the immediate future. It is believed, however, that the next few years may produce travel which will make it desirable, and engineers are anxious to have on hand all data showing its cost and the construction problems involved. Then when the need arises and money is available the project could be launched.

R. MOORE TRIAL IN VANCOUVER STARTS

Charge of Murder is Result of Death of M. Douglas

Vancouver, May 19.—Four jurors who were among the twelve who yesterday found Angus Nicholson guilty of manslaughter were empaneled to-day in the assize court here on a jury with two women and one other jurymen for the trial of Robert Moore.

Arraigned like Nicholson on a charge of having murdered Marshall Douglas in the Canada Hotel here on April 5 last, Moore replied "not guilty."

The jury panel of forty-five names was exhausted before twelve were chosen. J. W. de B. Farria, K.C., counsel for the defence, with J. D. McPherson, J. D. McPherson, K.C., stood fifteen jurors aside.

From the fact that Mr. Justice D. A. McDonald excused until 10:30 a.m. on May 25, jurors who were not empaneled for Moore's trial, it would appear he is holding the panel together for a possible disagreement, in which event a second trial could proceed on the day when the remainder of the jury assembles.

There is no other case on the docket, so that if Moore's trial is finished this week, May 25 would appear to be the day which will be selected for imposing sentences following the assizes. Twenty-four prisoners are awaiting to be sentenced by Mr. Justice McDonald.

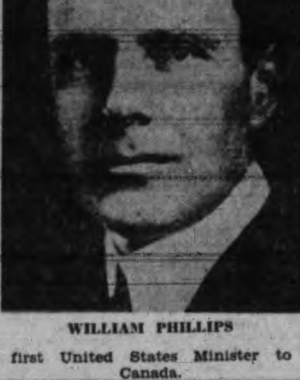

BANK CLEARINGS GAIN.

Victoria bank clearings for the week ending to-day total \$2,478,451, according to the figures issued by the Clearing House at noon.

Clearings for the corresponding week of last year were \$2,469,976.

HOPES TO SHARE IN JUBILEE EVENTS IN THIS COUNTRY

William Phillips

MINISTER OF U.S. SOON IN OTTAWA

William Phillips Plans to Attend Confederation Jubilee Ceremonies

Washington, May 19 (Canadian Press).—"I want to be there for your Jubilee celebration," William Phillips, first United States Minister to Canada, told the Canadian Press here to-day.

He explained he intended to present his credentials to the Governor-General, Viscount Willingdon, as soon as possible, probably about the end of May, and was asking for formal recognition so the way might be cleared for his appearance in Canada as soon as the Jubilee festival should begin.

The new United States Legation in Ottawa will not be open for business until July 1, which is the beginning of the United States fiscal year.

TO VISIT WEST.

Mr. Phillips is looking forward to seeing the Jubilee ceremonies in Ottawa and elsewhere, but it is unlikely he will be able to visit Western Canada this summer. He intends, however, to make a great effort to get away to the West if the work of his office will at all permit.

Mr. Phillips has called upon Mr. and Mrs. Vincent Massey and made their first acquaintance.

"I hope I shall get along in Ottawa as well as Mr. Massey has done here," said Mr. Phillips.

"I have heard nothing but praise of Mr. and Mrs. Massey wherever I go here. They have made themselves very popular."

PLACED WEATHERS.

Mr. Phillips, who but recently returned to the United States from Europe, told the Canadian Press he had visited the Canadian cemetery at Ypres.

"It is," he said, "I think, the most impressive of the cemeteries in the war area."

He laid on several graves, wreathed with ribbons bearing the words: "Tribute from the first American Minister to Canada."

Four-year Sentence Given in Vancouver

Vancouver, May 19.—Ralph Beaumont McCarty, formerly chief accountant for the Canadian Robert Dollar Company here, was sentenced to four years in the penitentiary when he appeared before Magistrate H. C. Shaw in the city police court this morning.

McCarty pleaded guilty recently to five charges of forgery, laid against him by the company, the amount involved being over \$10,000.

Murder-suicide Verdict is Given in Los Angeles

Los Angeles, May 19.—A coroner's jury here to-day returned a verdict that George J. Powell Jr., wealthy business man, was shot by his secretary, Margie Pike, with homicidal intent before she turned the gun on herself. The bodies were found Tuesday in Powell's automobile.

ROGER PINNEO WILL BROADCAST TALK ON INDUSTRY TO-NIGHT

Roger D. Pinneo, industrial and port development adviser to the city industrial committee, will be the speaker on the city's series of ten-minute talks, to be given over radio station CFCZ at 7:50 o'clock to-night. Mr. Pinneo will take as his subject: "The Industrial Outlook for Victoria."

PREVENTIVE ARM OF CUSTOMS IN B.C. IS INCREASED

J. G. Barton, New Head of Federal Branch in Province, Will Have Trained Staff of Men and Fast Motor-boats in Waters About Vancouver Island and Motor-cars Along B.C.-Washington Border to Check the Operations of Smugglers

Ottawa, May 19.—Announcement of the appointment of J. G. Barton of Vancouver as district chief of the Customs excise preventive service for British Columbia was made this afternoon by the Department of National Revenue.

The selection of Mr. Barton is a further step in the Dominion-wide reorganization of the preventive service to combat rum-running and other forms of smuggling along the Canadian border.

Mr. Barton will have a staff of approximately thirty men, and in addition several fast motorboats patrolling between the Mainland and Vancouver Island and along the Pacific Coast will be under his jurisdiction. A number of motor cars will also operate within Vancouver to the Rocky Mountains. The British Columbia district from the exact number of automobiles has yet to be decided upon.

Ontario and Quebec are also centres of reorganization of the preventive service. Expectations are that the personnel of the reorganized preventive staff will be determined within the next week.

As soon as the work of reorganization in Ontario and Quebec has been completed, a survey of conditions in Manitoba, Saskatchewan and Alberta with a view to a reorganization along the boundary line in the three prairie provinces will be conducted.

Already reorganization of the preventive service has been completed in the three maritime provinces.

VESSEL SEIZURES.

Ottawa, May 19.—The Department of National Revenue to-day put another check on the rum runners. Instructions have been issued to all customs collectors that where the master of a vessel indicates in his report outward a foreign port to which he does not intend to proceed, his vessel is to be seized until he has paid the penalty provided in the Customs Act. The penalty is \$400, or if the cargo comprises wines or spirits, \$2,000.

AUSTRALIAN IS NOW PLANNING PACIFIC FLIGHT

Vancouver, May 19.—Captain Frederick A. Giles of Sydney, former Royal Air Force officer, has arrived in Vancouver from Australia to make plans for a flight across the Pacific this summer. Mr. Giles was pilot of an air service between Sydney and Adelaide during the past three years and is an experienced aviator.

The proposed transpacific flight would be from Vancouver to Sydney by way of Honolulu, Suva, Fanning Island and New Caledonia.

LONDON RECEIVES SOVIET PROTEST

Statement on Raid on Russian Offices is Considered by British Cabinet

London, May 19.—Soviet Russia's note of protest against the British raid on Soviet House in London was received at the Foreign Office and laid before the Cabinet in Downing Street this morning.

The whole situation as regards Anglo-Russian relations is considered moment for official comment.

Sir William Joynson-Hicks, Home Secretary, told the House of Commons to-day that information which had come into the possession of the police as a result of the search of Soviet House was of such a nature that it had not yet been possible for the Government to complete the examination of the documents or determine the consequences.

It had been expected Joynson-Hicks would make a statement to the House of Commons next Tuesday, but Premier Baldwin announced during the sitting to-day that the whole question of the raid would be debated in the Commons next Thursday.

The postponement of the awaited statement by the Home Secretary unlocked a barrage of questions from the Laborites, Sir William giving a short "yes" to a query by Ernest Thurtle, Labor, as to whether the search warrant for the raid had been issued under the Official Secrets Act.

Nineteen Drowned in Dnieper River

Kiev, Russia, May 19.—Nineteen peasants were drowned to-day in the capsizing of a milk barge in the Dnieper River. Five were saved.

JAPAN WILL SEND DELEGATES HERE

Several Commerce Chambers Will be Represented at Convention

More acceptances to invitations to attend the fifth annual convention of the Pacific Foreign Trade Council of the United States to be held in Victoria next September were received at the Chamber of Commerce office this morning.

Expectations that the convention will bring together the most representative gathering of commercial interests ever held on British soil are sustained by the acceptances which have been pouring in during the last few days. Representation is already assured from Japan, Australia and New Zealand in addition to most parts of Canada and the United States.

In accepting the invitation the secretary of the Tokyo Chamber of Commerce asks for programmes of the convention and any other information, and mentions that several chambers of commerce in Japan are arranging to send delegates.

ALASKA PIRATES ARE ACCUSED OF MURDERS

Three Men on Aleutian Island Disappeared; One Body Recently Found

Seattle, May 19.—Meagre reports of the disappearance and possible murder of three men in what is thought by some to have been an armed conflict between Arctic hunters and pirates, bands have come out of the Far North.

The body of Philip H. Munro has been found in a shallow grave on the bleak north shore of Kungas Island, where he managed a fox farm for the Kanaga-Ranching Company of Seattle, his daughter was advised here yesterday by the commandant of the United States coastguard Bering Sea patrol. Munro disappeared last August from the island, which is in the middle Aleutian group off Southwestern Alaska.

Discovery of the body of Munro has given rise to speculation regarding the fate of two former managers of the isolated island ranch. They vanished under mysterious circumstances in March, 1926, and no trace of them has since been found.

Munro was fifty-eight years of age.

CHURCH DELEGATES MADE LONG TRIPS

One at B.C. United Church Conference in Vancouver Came 1,500 Miles

Vancouver, May 19.—Ministers and church workers of British Columbia have traveled long distances to attend the provincial United Church Conference, now in progress, which was opened Wednesday. The record is probably held by O. Vandewater, lay member from Quesnel, who came from Rolla, in the Peace River district, a distance of 1,500 miles.

Situated in the centre of a wealthy but undeveloped country, Rolla was glowingly described and its prospects enlarged upon by Mr. Vandewater, but lack of transportation was holding the district back, he stated.

Year 4. Report for Week No. 25, Ending May 13, 1927

VANCOUVER ISLAND EGG-LAYING CONTEST

Conducted by the Dominion Experimental Station, Sidney, B.C.

KING'S DAUGHTERS ENDORSE WOMEN'S MEMORIAL PROJECT

Provincial Convention Opened Here To-day: Splendid Report of Duncan Hospital

Endorsement of the proposed Canadian Women's Memorial Building to be erected at Ottawa was given by the King's Daughters at the opening session of the twenty-sixth annual convention of the provincial branch this morning.

The matter was brought to the attention of the gathering in a letter of greeting and suggestions for the coming year's work received from Mrs. Asa Gordon, Dominion president of the order, who is also chairman of the Women's Memorial Building committee. The project will be commended to the various circles for support.

Mrs. L. H. Hardie presided at the meeting, the devotional exercises being conducted by Rev. W. L. Clay, D.D. Unusually beautiful decorations graced the platform, including many flowers, purple iris and white stocks and lilacs, reflecting the colors of the order.

GREETINGS EXCHANGED

Letters of greeting were received from Mrs. Asa Gordon, Dominion president, and from Mrs. Helen Menzies, international executive secretary. The delegates were sent from the convention by Her Excellency Lady Willingdon, honorary president to Mrs. Gordon, and to the central council of the order in Indiananapolis, Mrs. Watson extended greetings to the delegates on behalf of the Victoria circles. Mrs. Welsh of New Westminster, Mrs. Wilson of Duncan, and Mrs. Bingham of Vancouver, responding for the visitors.

DUNCAN HOSPITAL

A record of progress and expansion in spite of the loss entailed by the destruction of the laundry by fire, was given in the annual report of the hospital at Duncan, maintained by the King's Daughters. The new children's ward was formally opened last week, and additional facilities included a covered way between the main building and the annex, and a classroom for nurses. Additional equipment had been added, bringing the official capacity of the hospital to a very high standard.

During 1926, 1,051 patients had been treated as against 918 the previous year, while nearly eighty per cent of the fees had been collected—a large proportion.

DELEGATES PRESENT

The provincial executive is represented almost in its entirety, as follows: Mrs. James Stewart, Mrs. L. H. Hardie, Mrs. Jack Bryson, Mrs. T. J. Lewis, Miss M. E. Wilson, Mrs. A. S. Marley, Miss M. E. Wilson, Mrs. A. S. Marley, Mrs. C. E. Welsh, Mrs. H. Currie, Mrs. J. C. Robertson, Mrs. H. B. Mayon, Mrs. W. H. Bourke, Mrs. J. R. Hendry, Mrs. L. C. Nicholson, Mrs. T. C. McIntyre, Mrs. M. S. Robertson, Mrs. W. C. Elliot, Miss Nan Baker, Miss Jean Thorburn, Mrs. R. J. McKenzie, Miss McDougall, Mrs. McKeath, Miss Clay, Mrs. Scott, Mrs. McLeod, Mrs. Mowat.

Cloveland delegates—Mrs. Wilkinson and Mrs. A. E. Connelley.

Cowichan delegates—Miss W. Campbell, Mrs. James, Mrs. McMillan and Mrs. W. H. Elkington.

Tilston and Chabot Meet in Finals For Lightweight Honors

Montreal, May 19.—Freddie Tilston of Winnipeg and George Chabot of Montreal will meet in the finals of the Canadian lightweight tournament to decide who shall meet Leo "Kid" Roy, the champion.

Tilston earned the right last night by winning a decision from Sylvio Mireault of Montreal, who was substituted for "Red" Macneil of Halifax, who failed to get in an appearance at fight time.

Chabot entered the final by defeating Syd Conn of Toronto by the decision route.

Both bouts were ten rounders.

"Frenchy" Belanger of Toronto beat Harry Goldstein of Boston decision.

Gene Deschamps, Montreal, scored a technical knockout of K. Leachman of Germany in the first round of a scheduled six-round bout.

A. Groux, Montreal, beat Young Burns of Quebec, getting a decision after four rounds.

Golf at Harrison

A golf tournament will be held at Harrison Hot Springs from May 20 to 24 inclusive. E. J. McPeck of Vancouver is donating a handsome cup for the ladies for the best net score on club handicap, and the Harrison Hot Springs Hotel Company are donating a cup for the men's best net score on handicap. The course is now in fine shape and it is anticipated that Vancouver, Victoria, Seattle and Bellingham clubs will be well represented.

No More Piles

Thousands Bless Dr. Leachman, the Physician Who Discovered This Common Sense Remedy

If you think that the cure for piles is the only method of escape from the misery of piles, it's because you haven't heard of the new treatment known as Dr. Leachman's HEM-ROID.

This Doctor's treatment is internal. By experimenting he discovered the cause of piles and then went further and compounded a remedy that would remove the cause. Every pile sufferer should benefit by his discovery and so that there will be no doubting or delay, MacFarlane Drug Co. and all druggists are authorized to sell HEM-ROID with guarantee that it will do as stated or money back.

On that honorable basis every sufferer should secure a package of Dr. Leachman's HEM-ROID to-day. (Adv.)

\$1,000,000 Timber Deal Consummated At Aberdeen, Wash.

Aberdeen, May 19.—Consummating one of the largest timber deals in recent Grays Harbor history, Schaefer Brothers Timber Company yesterday announced the purchase of 10,000,000 feet of timber in Grays Harbor County, Washington. The deal includes 200,000 acres of timber, twenty-five miles of railroad, locomotives, rolling stock and equipment. Approximately \$1,000,000 was involved.

Canada Shows Trade Balance

Official figures of Canadian foreign trade for the fiscal year ended March 31, 1927, are just available, and show a favorable balance of \$221,000,000, which compares with \$388,000,000 for the previous fiscal year and \$272,000,000 for the fiscal year ended March 31, 1926, according to figures issued to-day by R. S. Mabey, manager of the bond department of Pemberton & Son.

The smaller favorable balance is accounted for both by smaller exports and larger imports, the latter having been comparatively small declines in exports of agricultural products, animal products and non-ferrous metals. Mr. Mabey says: "There is a total decline of \$172,000,000 in the latter commodity, but this is entirely accounted for by smaller exports of gold. Gold production increased, but larger amounts were retained in Canada. It is interesting to notice that exports of gold increased from \$25,900,000 in 1926 to \$26,800,000 for the fiscal year ended March 31, 1927. The increase in imports of iron and its products. Under the latter category are automobiles, machinery, etc. The total increase in imports of these commodities was approximately \$50,000,000. Following is a comparative table of exports and imports for the last three years:

Total exports—1925, \$796,932,537; 1926, \$827,288,732; 1927, \$1,030,892,509.
Favorable balance—1925, \$272,134,816; 1926, \$388,027,059; 1927, \$221,000,000.

Pro Patria Branch Appoints Delegates to Vancouver Parley

Delegates to represent the Pro Patria Branch of the Canadian Legion at the Provincial Convention to be held in Vancouver, June 8 and 9, were chosen at a meeting of the branch held last night in the club headquarters. The following members were elected: H. P. Thorpe, R. Macmillan, T. G. Coventry, "A.P.P." and H. W. Hart. R. Macmillan was appointed to represent the branch at the caustion fund conference following the convention.

In connection with the conference of business and public men on destitute ex-servicemen, Comrade H. P. Thorpe reported progress. Comrade C. A. Gill in presenting a report of the ways and means committee, announced that a moonlight excursion to Roche Harbor had been arranged for June 15.

The death of Comrade Paton, after six years' confinement to the hospital, was announced to the meeting, and a standing vote of condolence to his relatives was passed.

ACIDS IN STOMACH CAUSE INDIGESTION

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach. The delicate stomach lining is irritated, digestion is delayed and food clogs, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial stimulants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead eat from any druggist some Bismarck Mints and take a teaspoonful of powder or four tablets in water after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bismarck Mints in powder or tablet form—never liquid or milk—is harmless to the stomach, inexpensive to take and is the most efficient form of medicine for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion. (Adv.)

They're better men in every way. When "Kruschen" starts the five-long day.

That "Kruschen" Feeling!

You can't keep it out!

It's not merely that you get up in the morning feeling life to be the best thing that ever happened; that you tackle breakfast with the appetite of a cowboy; that you set out for the office chirping like a skylark; that after you've got through a full day's work you still feel as fresh as paint.

It's not merely this. "That Kruschen feeling" bobs up at odd moments while you're actually engaged on the serious work of the day—and enables you to do it better, too!

And it's so easy to acquire it! No bothersome rules and regulations, no monotonous exercise, no special dieting. All you do is to tip a tiny, tasteless pinch of Kruschen Salts

every morning into your breakfast cup of coffee or tea.

Because Kruschen is a combination of just the vital salts that Nature ordains for the body's perfect health. It does for you what no other salts can do. Not only does it cleanse the body of all clogging waste matter; not only does it purify and refresh the blood; it also has a most remarkable tonic influence over the whole system, filling you with that unconquerable feeling of fitness, energy and cheeriness which is known all the world over as "that Kruschen feeling."

Remember—It's the "little daily dose" that does it! Buy a 70c bottle of Kruschen Salts to-day and start a new chapter in your life tomorrow.

Tasteless in Coffee or Tea

Put as much in your breakfast cup as will lie on a 10 cent piece. It's the little daily dose that does it.

Good Health for Half a Cent a Day

A 70c bottle of Kruschen Salts contains 100 uses for adults; it "so much as will lie on a 10 cent piece," taken in your breakfast cup of coffee or tea. Every druggist sells Kruschen. Get a 70c bottle to-day.

SIR ROBERT BORDEN HONORED IN LONDON

London, May 19.—Sir Robert Borden, former Premier of Canada, was the guest of honor at a dinner of the Pilgrims' Club here last night, and spoke of his appointment as Cecil Rhodes lecturer at Oxford University. In the course of his speech Sir Robert extolled Rhodes, paid warm tribute to Carnegie and Rockefeller, and fore-shadowed the time when all the Do-

minions of the Empire would have their own representatives in Wash-

CHURCH VOTE

Toronto, May 19.—By a vote of thirty-nine against one, the Presbyterian Church of Melfort, Sask. last night voted against entering the United Church of Canada, confirming its decision of two years ago, according to information received here today by Rev. W. J. Macnamara, secretary of the Presbyterian Church in Canada.

JULIAN ENTERS B.C. MINE FIELD WITH MILLIONS

Handed Over Control of Oil
Company in 1924; Started
Inquiry Himself

Vancouver, May 19.—C. C. Julian, former head of the Julian Petroleum Corporation of Los Angeles, said that the action against the corporation, now before a grand jury, was instituted by himself.

"I formed the company, got about 30,000 shareholders into it and handed over control in 1924," Mr. Julian said. "The company has about \$30,000,000 of appraised assets."

"Lately I have not liked the way the present gang were performing, so I opened up an aggressive campaign to expose them. Some people will end up in the penitentiary before I am through."

Mr. Julian, who is a Canadian by birth and lived in B.C. until 1914, is here in connection with his mining enterprises in this province. With a backing of \$8,000,000, the organization plans to enter B.C. mining operations on a big scale. They have already purchased one property and Mr. Julian himself with a party of engineers is leaving today for the Cascade Consolidated Mining Company's property in the Kettle Valley.

Mr. Julian left Los Angeles by aeroplane at 8 a.m. Tuesday and arrived at Lulu Island at 4 p.m. yesterday. He stopped overnight at Medford, Ore. He covered the 1,600 miles in fourteen hours' flying time.

The Julian interests have opened offices in Vancouver to handle their B.C. enterprises.

Los Angeles, May 19.—Wm. C. Kottman, head of the auditing firm which has inspected the books of the Julian Petroleum Corporation, reported to the Federal receivers placed in charge of the corporation that the

MILK IS WORKMEN'S CHIEF BEVERAGE

Chicago, May 19.—Prohibition has given an impetus to industry through a strange medium—milk.

A survey made in various states by the National Dairy Council shows that this is the chief drink of workmen in many factories. This is looked upon as beneficial, not only from the health, but from the financial viewpoint.

For, says the council, greater sale of milk in the factories puts more money into the hands of the farmers, so they may have so much more to buy the products of those industrial plants that patronize them.

Thus, the benefit works both ways.

overissued Julian preferred stock totals 3,000,015 shares and the overissued common stock 665,000 shares.

The total outstanding preferred shares of the corporation, according to the audit figures, is 3,600,015 shares, with 600,000 of this authorized. The total of outstanding common shares is 1,248,000, with but 600,000 of this authorized.

Since Julian preferred stock has a par value of \$50 a share, the book value of the over-issued shares is \$180,000,000. Common stock of the corporation has no par value.

MUST MAKE RESTITUTION

Offers of voluntary restitution are said to have been made to the receivers by many persons who participated in the Julian scheme. The receivers have refused to accept such offers, and are insisting that the contributors to these pools, a large part of them residents of the Pacific Northwest, must make restitution of the money they received. The receivers have been unable to locate many of the contributors, and are insisting that the contributors must make restitution of the money they received.

The receivers will attempt to collect everything above seven per cent in these pools, estimated at a possible \$21,000,000. They also will demand the return of all so-called bonuses, above seven per cent regardless of the terms of the loans.

DEATHS OF FORTY MOURNED BY DISTRICT

(Continued from page 1)

by the explosion of dynamite, while forty others were injured.

Mrs. Andrew Kehoe, wife of the maniac, was the first victim of his fury. It was established today. Portions of her body were found in the ashes of one of the outbuildings on the Kehoe farm. The skull was crushed, leading to the belief that Kehoe killed her before casting the body into the building to be burned.

The discovery, made by Roy Cole, a deputy sheriff, brought the total deaths to forty-two.

PREPARE FOR FUNERAL

Of the hundred and some odd families of the community, there was none who had not lost a child or relative or friends by the Finnish handwork of Kehoe, who set off the death-dealing blast at the schoolhouse while under the delusion school officials were conspiring to ruin him. The usual early morning hurry and scurry of getting the children ready for school was conspicuous by its absence today. Parents whose daily task it was to hustle the youngsters from bed and scrub their faces for school were engaged in the sad duty of making funeral preparations for their loved ones.

Tentative plans call for a group funeral for the thirty-six children killed, with separate services for the five elder victims.

WAS COLLEGE GRADUATE

Kehoe, who conceived the work of destruction, was a graduate of Michigan State College and had been a leader in community work since settling here several years ago. He was looked upon as a sort of sage here, because of his superior schooling, his intelligence having been a marked trait to the residents of the simple community.

Recently his demeanor suddenly changed, according to residents, and he showed signs of a persecutory complex. The comparatively trivial school tax levied against him was ruining him financially, he told friends, and he became morose.

ENGAGED IN CONTROVERSY

Officials of the school board, of which he himself was a member, were called upon and decided for the tax levy. He engaged in controversy with the members on every occasion and then suddenly his attacks ceased. In the meantime, it was believed by officials, he hit upon the scheme of destroying the school and its occupants, the result of the dictates of his sick brain.

According to information placed together by officials, Kehoe is believed to have mined the basement of the schoolhouse with dynamite several days ago. Electrical contrivances were arranged to set off the blast. Kehoe was seen running from the school shortly after 9 a.m. yesterday, and the blasts soon followed.

The first explosion lifted the floors and burst the walls of the building, hurdling the children through windows and crashing walls. A second and heavier explosion completely demolished the building, burying children and teachers under tons of debris.

When the blasts occurred, according to witnesses, Kehoe was seen sitting in his automobile near by, chuckling with maniacal glee.

BULLET CAUSED EXPLOSION

Not content with the destruction he had wrought, the demented farmer caused the death of Emory Huick, principal of the school, and two bystanders by firing a shot from an army rifle into a box of dynamite in the rear of the automobile. This explosion tore Kehoe's body to pieces and instantly killed Huick, tore the legs from Glen Smith, postmaster of Bath, and killed Nelson McFarren, who had approached the car. Smith died on the way to a Lanesing hospital.

Prior to the explosion Kehoe had set fire to his farm house and outbuildings, which were burned to the ground. On the fence of the farm was found a sign which read: "Criminals are made, not born."

VICTIMS WERE YOUNG

Most of the children killed in the school ranged in age from six to eight years.

Recently a mortgage on the Kehoe farm was foreclosed. Neighbors today said Kehoe had complained his taxes were so high he could not meet the mortgage and that the school board had refused his request for a reduction.

HON. ROBERT FORKE VISITOR IN BRITAIN

Tells London Newspapers
About Canada's Immigration
and Settlement Problems

London, May 19 (Canadian Press Cable).—"The importance of applying policies providing Canada with manpower, without introducing unemployment, but rather increasing the demand for labor, must be emphasized with the necessity of preventing the admission of undesirable immigrants," Hon. Robert Forke, Canadian Minister of Immigration, declared here last night while discussing Canada's immigration problems with newspapermen.

"Canada's immigration activities are therefore both positive and negative," he added.

Shortly after his arrival with W. J. Egan, Deputy Minister of Mr. Forke's department, the Minister received about thirty journalists at his hotel and, after reading a written statement he had prepared, answered their questions.

"Canada has adopted the policy," he said, "of encouraging farm workers and household workers. In recognition of the strong British strain in the national fabric, special emphasis is laid upon immigration from the British Isles. Courageous steps have been taken to relieve the British settlers of the handicap of high ocean rates. The fact that only a limited number from classes mentioned are available from the British Isles necessarily broadens the field to include the United States and European countries from which suitable settlers may be secured."

The remainder of the Minister's statement was on general lines. Then followed the questions.

"What is the percentage of British immigrants?" asked some one who declared himself a Canadian.

He was told the percentage of British during the last six months was about forty-eight, but the balance was not entirely continental European. About fifteen per cent being United States farmers with capital. J. Bruce Walker, director of European immigration for the Canadian Government, supplemented this information by adding that under the 3,000-family scheme, seventy-eight per cent had been taken from the towns of England, Ireland and Scotland.

M. MOVET, DANCER, DIED AT LAUSANNE

Lausanne, Switzerland, May 19.—Maurice Mouvet, world famous cabaret dancer, died of tuberculosis last evening in a private hospital here. His wife, Eleanor Ambrose, the fifth and last partner of his fame, and his brother, Oscar, attended him in his last moments.

There had been a turn for the better last week and his brother had arranged to leave, but a relapse came at the end of the week and it was apparent there was no hope. He sank rapidly and became unconscious on Tuesday.

The dancer, who had been in delicate health, was on his way to London to fill an engagement to dance before King George and Queen Mary two months ago, when his condition suddenly became alarming. He was brought to Switzerland for treatment, but the physicians from the first held out little hope for his recovery.

Maurice Oscar Louis Mouvet, known simply as "Maurice" to his friends, of ballroom dancing in Europe and the United States, was a United States citizen, born in New York on March 17, 1889, of Belgian parents. During the World War he served with the French army.

He had suffered from weak lungs for years and was reported to be dying at Deauville in 1923.

Some of his dancing partners were as well known to the public as he was himself. One, who was also his wife, was Florence Walton. They were divorced in 1921. His next dancing partner was Leonora Hughes. She dissolved their partnership by marrying Carlos Ortiz Basualdo in New York in February, 1925. Maurice, it was said, learned of her intention only on the wedding morning, and burst into tears at the news.

Then Barbara Bennett, daughter of Richard Bennett, the actor, became his team mate, but their partnership was dissolved, owing, it was said, to differences over the monetary provisions of their contract.

His last partner, whom he termed the girl he had been "dreaming of for twenty years," was Eleanor Ambrose, daughter of a Kansas oil man. They were married in Paris in April, 1926. She was with him when his fatal illness began.

SCULPTURE DISPUTE REPORT IS DENIED

London, Ont., May 19.—"It is a very interesting story, but there is absolutely no basis for it," declared John A. Pearson, architect of the Parliament Buildings in Ottawa, discussing today the report from the capital that the Victoria Tower was being held up until a point of symbolism could be settled between Mr. Pearson and Mrs. Lake, well-known Canadian sculptor, who is carving figures on the walls of the chamber.

"The story falls down flat because there is no delay or holdup in the work," Mr. Pearson stated. "We hope to have the Memorial Chamber ready for November 11, Armistice Day."

"As to the report that Mr. Lake has objected to my conception of a wife as more fitting than a mother in one of the sculpted groups, that is also without foundation. The statue of a wife or mother about which so much appears to have been said is merely an item in the whole memorial hall ensemble. Perhaps it will not go in at all."

REV. E. BRADEN NEW B.C. CHURCH LEADER

Vancouver, May 19.—Rev. E. D. Braden of Ryerson United Church, Kerriedale, was elected president of the British Columbia Conference of the United Church, meeting in Wesley Church here at 10 a.m. today. Mr. Braden has been chairman of the Vancouver Presbytery and succeeds Rev. W. H. Smith, D.D., in the provincial office.

VANCOUVER STAFFS ASK HIGHER PAY

City Rejects Federal Conciliation Board Plan; Local Arbitration to Decide

Vancouver, May 19.—The deciding vote against the Vancouver City Council joining the Civic Federation in an application to the Federal Government for a conciliation board was cast at a session of the finance committee yesterday by Ald. H. E. Almond, chairman. Supporting Mayor Louis D. Taylor's motion to meet the Federation's request were Aldermen Angus MacInnis, John Bennett and Frank E. Woodside.

The Mayor stated, when the motion failed to carry, that he would again call together the city conciliation board, composed of representatives of the Federation and the council.

In moving to comply with the federation's request for a conciliation board as provided under the Industrial Disputes Act of Canada, expense of which is borne by the Federal Government, Mayor Taylor said it was much better to have an outside board pass on such matters than the council. "If we can find money for other purposes, we can find it for this," said the Mayor. "Unless we do this we shall go back to the committee and in that case I will support the request of the employees for increased

pay as recommended by the city conciliation board. Ald. MacInnis—Where the federation falls down is in not having the Attorney-General tell the city fathers what to do. Mayor Taylor—I did not make my motion on the justice of the case but because Mr. Pilkington said there was no money.

Ald. MacInnis's remark referred to an application of Magistrate Shaw for an increase in salary, which was referred recently to the attorney-general. The provincial official recommended that the application be granted, stating if it were not given by the city he thought the Executive Council would give it due consideration under the provisions of the Vancouver Incorporation Act.

Mayor Taylor told the council he had interviewed the magistrate on the matter and found he was willing to accept \$1,000 increase instead of the \$2,000 asked for, and the Mayor advocated that the city grant this amount, bringing the official's salary up to \$7,000 rather than take a chance of the Government awarding the larger increase. This passed with Aldermen Woodside, Bennett and MacInnis voting against.

SCHOOL CHANGES

Nelson, May 19.—Nelson school board has been advised that Nelson, with other centres having an average daily school attendance of 1,000, was declared a city of the first class for school purposes in January last, but that owing to the boards concerned having made up their estimates on the basis of the old grants, the Department of Education has decided to defer applying the new classification

until January 1 next. The department will forward a cheque to cover the deductions it has made in the grants of the past few months.

PENNY WISE AND POUND FOOLISH

THE CITY RECENTLY CALLED FOR tenders for the supply of nitrogen lamps. Two Victoria firms sent in bids. Both were for \$804.75—the standard price. The Northern Electric Company of Vancouver quoted \$800 and was about to get the business. The attention of the local tenders was drawn to the fact that their price was one-half of one per cent. higher than that of the Vancouver company. But the mayor agreed that the difference was so small that the matter should be reconsidered. He asked the Council by letter to do so on Monday night. The Council, however, reached the conclusion that it was dangerous to interfere with the awarding of public tenders to other than the lowest bidder. The Northern Electric Company of Vancouver will get the order and the City Council will remain under the impression that it has saved the taxpayers of this community four dollars and seventy-five cents.

There is a principle involved in this transaction which is worth consideration. Both of the Victoria firms that tendered for this business pay their tradesmen's licenses, their municipal taxes, assist the work of the Victoria Chamber of Commerce, contribute towards the cost of the Publicity Bureau, and generally fulfill their duties of citizenship. The Vancouver concern which will supply these lamps pays neither license fee nor taxes into Victoria's municipal treasury. It is not interested in the work of either the Chamber of Commerce or that of the Publicity Bureau.

Let us suggest that very often the lowest tender on paper is actually not the lowest when all the various considerations have been taken into account. No doubt the firms that quoted on this business could save money many times in the year by ordering supplies from farther afield instead of buying them locally; but a sense of community loyalty is allowed to take the place of what might be called strict business. This encourages local enthusiasm in such movements as that which is represented by the Home Products Fair. That event is hailed as something in the nature of a call to arms for the consumers of this community—an object lesson in local enterprise to be learned by all citizens in their own interest, a sort of signpost pointing the way to larger payrolls and greater prosperity.

DOES THE ATLANTIC KNOW?

NOTHING SO FAR HAS BEEN DISCOVERED to suggest that Nungesser and Coli reached the American side of the Atlantic. They even may have been forced down a comparatively short distance from either the French or the British coast. Or, of course—and this theory seems more feasible—they may have run into a gale after having been in the air a few hours. It is known that a heavy storm was raging South of the course they intended to take, for the captain of a French liner reported this on his arrival on the other side two days after the aviators should have landed. His view was that no aeroplane could have battled successfully against the conditions which he encountered, while the elements farther to the North, in his opinion, were still worse. In that case the mid-Atlantic probably holds the secret.

It is not surprising that there should be frequent reports of people having heard the drone of a motor on the day when the two gallant airmen were expected off the Atlantic coast. Such reports are strangely reminiscent of the early days of the war in Victoria. Almost anything was expected from the German cruisers that were known to be on the Pacific within a few days' steaming distance from this port. We well remember the reports reaching The Times office of a naval engagement in nearby waters, eye-witnesses' stories of it, graphic descriptions of the battered hull of the Leipzig being towed towards Esquimalt by the Rainbow. But it was a case of the imagination getting out of hand under the strain of unusual circumstances. In the case of Nungesser and Coli there seems little hope of their being alive. This is all the more tragic because their deeds of valor were numerous, and war disabilities did not dampen their ardor in an exploit which called for the maximum of physical fitness and mechanical perfection.

A GREAT EVENT FOR CANADA

THE COMING OF THE WORLD'S POULTRY Congress to Ottawa this year will mean much to Canada. The dates on which the great convention and exhibition fall are July 27 to August 4. They coincide with the celebration of the Diamond Jubilee of the Confederation of the Dominion. The falling together of the two events is particularly appropriate.

In a foreword to the final programme of the con-

gress just issued from Ottawa, Premier W. L. Mackenzie King put the matter admirably in the following words:

It is fitting that a nation which embraces former citizens of many nations should entertain representative citizens of those nations, and that opportunity should be afforded the latter to note Canada's vast development in the sixty years since Confederation, and the prosperity attained by the stranger from a foreign land, who makes his home in Canada. The people of Canada extend to you a warm welcome.

It is conservatively estimated that six thousand delegates and others having to do with the congress will be in attendance. These will go to Ottawa for the business proceedings of the convention and to see the great poultry show in connection therewith. But many hundreds of them will take the opportunity to travel as far as possible over the Dominion. In two chief directions good results will flow from this friendly invasion of thousands of representatives of nearly two score foreign nations. It will lead to closer understanding between peoples, for there is nothing like personal contact to dispel prejudices and mistaken notions. It will lead to increased business in many important directions.

Canadians should be prepared to do all in their power to co-operate towards making the World's Poultry Congress the memorable success it ought to be. All interested may obtain particulars of this great and significant event from the World's Poultry Congress Secretary, Ernest Rhoades, Transportation Building, Ottawa, Canada.

LIBERAL STOCK STILL HIGH

ALTHOUGH HON. CHARLES DUNNING no longer directs the political destinies of the Province of Saskatchewan, the byelection held in the constituency of Moose Jaw on Tuesday indicates that the cause of Liberalism in the provincial arena there still thrives as well as it has done since Hon. Walter Scott formed the first Ministry in 1905. This vacancy was caused by the elevation of Mr. Justice Knowles, who formerly represented the riding in the Legislature, to the Court of King's Bench.

Out of an electorate of 9,500 only 6,227 went to the polls, and of these Mr. W. G. Ross, K.C., the Liberal candidate, obtained the support of 3,928, compared with Dr. R. H. Smith, the Conservative, who obtained 2,299 votes. Thus did Mr. Ross roll up the very comfortable margin of 1,629 votes. The nature of the support which rallied to the Liberal candidate, incidentally, is reflected in the fact that in only three of the thirty-six polls was he behind his Conservative opponent.

WHAT OTHER PAPERS SAY

CANADIAN ROBIN AN OPTIMIST
From The St. Catharines Standard

The Canadian robin is declared to be a most incurable optimist, because he will be found singing away in a March and April snowstorm, and with the slightest hint of atrocious Spring weather, he will be as cheerful as if it were June sunshine. Some people will be surprised to learn that the so-called American robin is not an importation from England, but a native of the American Continent, who really belongs to the thrush family.

BRITAIN AND CHINA
From The London Observer

There must be no sort of pretext for the charge that Britain is the special enemy of the national movement in China. The very contrary is the truth. We have as little to lose and as much to gain as any country trading with China in meeting Chinese endeavors for unity, independence, and self-respect with practical sympathy at every turn. In fact, trade with China is mutually beneficial, is the main basis of Anglo-Chinese relations.

Queer Quirks of Nature

ANCIENTS HAD FOOT TROUBLES

Famous statues of ancient times are usually cited to show that foot troubles are a comparatively modern plague, which came into existence along with confining leather shoes. But realistic statues of the ancient world also show that the ancients developed shoe troubles and that their feet were effected.

A report in a recent number of The Antiquarian, an archaeological journal, states that the very early statues do show perfect feet. Egyptian sculptors, working out their difficult art attempted to model the toes and they carved feet with a straight inner edge, and a sample of this is the figure in the British Museum of Ramses II, dated about 1333 B.C., which was found in the House of the Kings at Thebes. The same perfection of shape is true in the early Assyrian sculpture, as is shown by the straight, symmetrical toes of the statue of King Shamshi Raman, who ruled from 825 to 812 B.C.

In the Greek statues of the Archaic period, usually dated as from 650 to 500 B.C., the symmetrical shape of the toes is always noticeable. The bronze discus thrower, or Discobolus of Myron of the early fifth century B.C., shows fine, well-modeled toes.

But beginning in the late fifth and during the fourth century B.C., a deformity of the little toe begins to appear, the archaeologist finds. The athletic statue, called Diadumenos of Polykletos, and even the famous Hermes of Praxiteles, found at Olympia, shows the fifth or little toe pressed or crushed into the fourth toe. The typical foot for the next several centuries is a straight great toe, a rather wide gap between it and the second toe, and a deformed little, or fifth, toe.

The malformations mentioned, namely, the gap between the great and second toes, and the deformed fifth toe are clearly due to the type of sandals, he says. The type generally worn had a single inter-toe thong which came up between the great and second toes, and a cross strap which prevented a natural expansion of the little toe. The statuary of the last three centuries B.C., and of the first two centuries A.D. are correctly realistic in their modeling, despite the fact that realism, if it extends to the reproduction of malformation, was and is considered unartistic.

The claim that the ancients must have suffered from fallen arches because of the flat moccasin-like tread of sandals has not been authenticated, this writer declares, in spite of evidence shown in several statues with rather flat feet.

A THOUGHT

In the multitude of counselors there is safety.—Proverbs xl, 14.

He who was taught only by himself had a fool for a master.—Ben Jonson.

Do You Mean What You Say?

FOUR SQUARE

FOUR SQUARE

The geometric figure which has four equal sides is called a square. It faces every direction and thus presents no front which differs, even minutely, from any other front. This obvious fact is the basis for all the common comparisons of persons and political leaders to a "square." When a campaign orator talks of his candidate being "square" or "four square" he means that he is honest, fair and presents the same front to his constituents that he does to every industrial group and behind the closed doors of his party conferences. "Four square" is also a sailing term. A ship is sailing straight with the wind when the sails are "four square," or at right angles with each other.

Canadian Questions and Answers

CANADIAN RAILWAYS

Q.—What are the figures of Canadian railways?
A.—Canada now has a railway mileage of 40,353 with a few hundred miles under construction, whereas there were only 3,000 miles soon after Confederation. The capitalization has reached \$1,400,000,000. The net operating revenue for 1925 was \$53,147,631 and dividends, \$30,408,773. 41,000,000 passengers were carried in that year and 109,000,000 tons of freight.

The WEATHER

Daily Bulletin Published by the Victoria Meteorological Department.

Victoria, May 18—5 a.m.—The barometer remains low on the coast and unsettled, rainy, with weather prevailing on the Pacific Slope. Light frosts have occurred in Alberta and Saskatchewan.

JOTS FROM GEOGRAPHY

GREAT SALT LAKE, in Utah, has been the source of scientific study and speculation for years because of its peculiarities. It is one of the most picturesque spots in America. The lake is 30 miles long and varies between 20 to 32 miles wide. It is fed principally by four big rivers, but has no apparent outlet save evaporation. The lake is decreasing in size every year, and contains a large per cent of saline matter.

Television Engineering Achievement Has Great Record

Demonstration of television by the American Telephone and Telegraph Company at the Bell Telephone Laboratories on April 7, was an engineering achievement of the first magnitude—one which deserved the wide-spread acclaim brought to it by the popular nature of its appeal. Various experiments in the field of television have been conducted, but the demonstration which was hoped would some time produce vision at a distance—avoiding premature announcements, avoiding the initial appearance in this field with surprisingly complete apparatus. With it they have actually demonstrated television in operation over hundreds of miles of intervening space. Not content with its demonstration by a single medium of transmission, they have shown television both by wire and by radio. They have also developed several forms of receiving apparatus suited to the varying requirements of individual employment, such as home use, and to the perception of the distant object by a considerable audience.

It is noteworthy of television, as the telephone engineers have worked it out, that the solution follows closely the lines that inventors and prophets have envisioned for at least a generation. The recent striking achievement was not the result of any radically new discovery, but rather an achievement made possible by the general growth of science and technical knowledge, and a high order which have vastly extended the range of control of essential factors. Such, for example, are the photo-electric cell, the vacuum tube, amplifier and the transmitting networks of pre-determined characteristics, without which the idea of a few decades ago, never sound, could not have borne fruit. What the telephone engineers have done is to study intensively each element of the problem, and apply to its solution the best means now available through modern science and engineering. It is an achievement of co-ordinated research and development of a kind possible only in a great research organization.

The study of every element of the problem. In the case of television these elements embrace everything from the details of terminal things from which can be studied in the laboratory, to a knowledge and control of the transmission characteristics of lines and radio channels. Another aspect of this achievement is the particular interest to engineers is the nice balance which has been struck between the goal sought—in this case the kind of research and development which has been made available. There has been much popular talk and discussion of transmitting pictures as prize fights, stage performances and the like. Anything as extensive and ambitious as this would require the use of an enormous band of frequencies far beyond the present capacity of a single pair of telephone wires or any radio channel now available. To transmit clearly and relatively free of interference, the human face requires a much narrower band of frequencies and one reasonably within the possibilities of present knowledge. The fact of the matter is that the problems of the telephone company are likely to be involved primarily in the adequate transmission of views of the face, making the immediate television problem a simpler one than that which confronts those who seek to provide distant vision of a pageant.

At the moment the telephone system which the American Telephone and Telegraph Company has worked out utilizes substantially the entire available transmission range of a high-class long-distance telephone circuit.

As the demonstration showed, the rendering of the human face in animation is adequate, whether viewed in an individual apparatus or more than life-size on a screen. The avidity with which members of the audience, and even the telephone company officials themselves, utilized the transmitted image as an adjunct to their telephone conversations with Washington indicated very forcibly the probability that television must in the future contribute seriously as a desirable addition to existing communication services. That it is ever likely to form part of the regular subscriber's telephone equipment is hardly probable, since the element of distant vision is not required in the great majority of conversations. That a limited number of special television terminals may be provided in large centres of population for use in connection with long-distance telephony seems, however, quite within the range of present engineering and commercial possibilities.—Electrical World.

Garden City W.T.U.—The Garden City Women's Institute will hold another of their popular dances on Friday, May 20, in the Marigold Hall at 9 p.m.

District W.C.T.U.—The monthly meeting of the district W.C.T.U. will be held at the Y.W.C.A. on Friday at 8 o'clock.

JURY CONVICTS BUT RECOMMENDS MERCY

A. Nicholson Found Guilty of Manslaughter in Vancouver; M. Douglas Killed

Vancouver, May 19.—Guilty of manslaughter, with a strong recommendation for mercy, was the verdict given yesterday afternoon by the jury which tried Angus Nicholson on a charge of having murdered Marshall Douglas, advertising man, in a room in the Hotel Canada here shortly after midnight on the morning of April 5.

The jury of eleven men and one woman returned to the courtroom at 3.05 p.m., having deliberated one hour and thirteen minutes.

Mr. Justice D. A. McDonald said he would give serious consideration to the jury's recommendation as he remanded Nicholson to the end of the assizes for sentence.

Following the announcement of the verdict Nicholson was removed from the building in a provincial police van to Oakalla Jail.

It was arranged that the trial of Robert Moore on the same indictment would be started to-day, the two trials having been separated on an application of defence.

TWO-DAY TRIAL
The Nicholson trial lasted two days. The Crown's case closed at noon and the defence occupied less than an hour. Character evidence by former business associates and employers was offered. B. Frank Bird, business manager of the Vancouver Morning Star; F. R. Russell, president of the Seattle, E. F. Ault, and Loan Association of Seattle; E. A. Ault, publisher of The Seattle Union Record, and A. G. Dentler, business manager of the same paper, all agreed Nicholson was a good, straight-forward and diligent, peaceful, straightforward and diligent. Ault said Nicholson had been overseas during the war.

POSSIBLE VERDICTS
In his charge to the jury Mr. Justice McDonald said there were three possible verdicts. One, murder, meant life in the penitentiary. The second, manslaughter, meant a term of years or a fine, or both. The third, homicide, meant a fine or a term of years, or both.

"Has the Crown discharged the onus of proving beyond a reasonable doubt that Nicholson caused or was a party to causing the death of Douglas?" asked the judge. "If you have such a doubt, the accused is entitled to the benefit of it."

INTOXICATION
He told the jurors they should consider evidence of the accused drunk when considering whether he had any guilty intent.

Reading from a judgment of the British House of Lords, Mr. Justice McDonald pointed out that if the accused had been a party to the death of Douglas it did not matter how drunk the accused was, he would be guilty of manslaughter. However, if Nicholson was so drunk that he was incapable of committing a crime, he could not be convicted of murder. He stated that the evidence of a fight between Nicholson and Douglas earlier in the evening than the visit to the hotel, near Windermere Apartments, the judge said the jury might consider whether or not that had been developed again when they got another bottle of liquor in them."

THEORY DISCUSSED
Referring to a theory, submitted by the defence counsel, Mr. Justice McDonald said many theories might be advanced. One was that another man might have gone in the hotel room and killed Douglas. The jury had to decide whether the theory was reasonable.

"If I were sitting as a member of the jury I would not convict this man that jury would not convict the judge, who explained he realized that was a very unusual remark for a judge to make to a jury."

"However, it is entirely for you to say," he added in conclusion.

Langford

Langford, May 18.—Miss Jean Donald who has been in Europe for the past fifteen months, arrived in Montreal on the Canadian Ascania on Monday.

Miss Donald, besides visiting her relatives, has been studying art in Paris, Belgium, Holland and London. She is paying a few visits en route before reaching her home on the Island Highway. She is the only child of Dr. and Mrs. David Donald.

Mrs. Percy Collins, who has been staying with Mrs. Henry Pike, Millstream Road, has returned to Vancouver.

Mrs. J. L. Brown is the official delegate and Miss L. M. A. Savory an accredited delegate to the Women's Institute Provincial Conference at Chilliwack.

The choir practice will be on Friday evening in St. Matthew's Church at 7 o'clock.

Mrs. Arthur Cooper of Wharfedale, Millstream Road, is leaving on Sunday for a six months' visit to England, visiting relatives at Bradford, Yorkshire.

CHARLES W. TURPIN FUNERAL IN SEATTLE

Seattle, May 19.—A funeral service for the late Charles W. Turpin will be held this afternoon from the chapel of the Home Undertaking Company. Burial will be in the Evergreen Park Cemetery.

Turpin, an electrician, twenty-six years old, was killed early Sunday morning in an accident on the North Trunk Highway just north of the King County line.

He was born in Tennessee and had come to Seattle only one month prior to his death. He was a Canadian World War veteran.

In addition to his mother, with whom he was living at 902 Twenty-seventh Avenue, he is survived by a widow, Mrs. Genevieve Turpin; a son, Harold; his father, William G. Turpin, of Okla.; four brothers, John, George and Fred Turpin, all of Seattle, and Heston Turpin, of Vancouver, B.C. He is also survived by four sisters, Miss Selma Turpin, Chicago; Mrs. J. Olsen, Vancouver, B.C., and Mrs. E.

Nobody Loves a Skinny Woman!

Gain pounds of weight and strength in 3 weeks with new YEAST and IRON—or pay nothing.

Get a Lovely Skin for an Ugly One
Cleared Pimples; Gained Weight
"I have found great improvement in my skin and weight since taking Ironized Yeast. The pimples were terrible and now they are almost gone. I recommend Ironized Yeast to all my friends."—Miss Anna B., Miss A., N.Y.

Gives all the weight-building benefits of cod liver oil
Folds are amazed at Ironized Yeast. They see 5 to 15 pounds gained in 3 weeks! Skinny limbs covered with rounded, graceful flesh! Ugly hollows in shoulders filled up! Eyes sparkling with health. They ask—how does Ironized Yeast work so quickly?

How Ironized Yeast Builds Quick Flesh and Health
Ironized Yeast is two tonics in one—weight building Yeast and strengthening Iron. The yeast is the same used in making malt, and which makes malt so beneficial. It is especially cultured yeast, concentrated to give the utmost in flesh-producing value.

This Yeast is treated with pure, vegetable iron, the same as in spinach. It is easily assimilated by the body, making rich, red blood and toning up nerves and muscles.

When Yeast is Ironized in this way it is 100 per cent. effective—for iron is needed to bring out the weight-building, strengthening values of Yeast. By this special formula Ironized Yeast gives you results in half the time treated by yeast or iron taken separately.

If you are underweight, nervous or tired, you need Ironized Yeast. Start it to-day. Absolutely harmless. No rice, pleasant-tasting tablets in a handy bottle.

Try It on "Money Back" Offer
Go to-day to any drug store and get a full size treatment of Ironized Yeast. Start it to-day. Get your money back. If inconvenient to buy from the drugist, send \$1.50 direct to the Ironized Yeast Co., Port Erie, Ont. Desk 3202.

J. Lancaster and Mrs. E. H. Martin of Spokane.

ONTARIO BOY IS CHAMPION ORATOR

Frederick Hotson of Tavistock, Ont., was acclaimed champion boy orator of Canada at the Dominion oratorical championships for pupils of Canadian secondary schools held here last night. Miss Simone Landry of St. Adolphe, Man., who spoke in French, was second in the competition, and Miss Jean Cameron of New Westminster, third.

Julius Pörsard of Meunster, Sask., and Walter D. A. O'Hearn of Halifax, N.S., were the other competitors, each of whom had won a provincial contest and represented their provinces in the Dominion finals.

The subject of the speeches was: "Canada's Diamond Jubilee; Her Achievements Since Confederation."

TRIP TO EUROPE
The award to Hotson is a free trip to Europe this summer and the right to represent Canada at the international contest in Washington next Autumn, meeting competitors from Great Britain, France, the United States, Japan, Mexico and Hawaii.

The chairman last night was Hon. Sir William Mulock, Chief Justice of Ontario, and the judges were Chief Justice Latchford, John D. Falconbridge, K.C., Dean of the Osgoode Hall Law School, Toronto, and Professor H. C. Brown of the University of Toronto. Hon. Arthur Meighen had consented to act as a judge, but he was confined to his bed with an attack of influenza and was unable to attend. The meeting was held under the direction of Dr. James L. Hughes, director for Canada of the Canadian and International Oratorical Contests.

THE CHAIRMAN—Last night was Hon. Sir William Mulock, Chief Justice of Ontario, and the judges were Chief Justice Latchford, John D. Falconbridge, K.C., Dean of the Osgoode Hall Law School, Toronto, and Professor H. C. Brown of the University of Toronto. Hon. HAPPY TO BE FREE FROM ECZEMA

Improved Right From the Start
When Using Ovelmo

He was a very miserable man—was Mr. Nelson Chatson of Renfrew. No what he would, he could not get rid of the terrible itching, burning Eczema. He used a number of remedies without relief. Then he had faith—doctors prescribe for him, and fully followed their directions but noticed very little improvement in his suffering. Then he consulted a noted skin specialist, and still was in the same distressing condition. "Finally," writes Mr. Chatson, "I tried Ovelmo and I improved right from the start and after using Ovelmo for a couple of months, the disease has entirely disappeared. I am always glad to recommend Ovelmo because of what it has done for me."

So are more than 35,000 other grateful persons who have testified that Ovelmo treatment has completely rid them of Eczema, Itch, Tetter, Salt Rheum and other Skin Troubles. This complete treatment contains medicines for both external and internal use, which banish the eruption, heal and soothe the inflamed surfaces, and at the same time purify the blood, improve the digestion and build up the whole system. No matter how stubborn the case, Ovelmo will give relief and free you of disease—or else your druggist will return your money. All druggists sell Ovelmo on this money back guarantee. (Adv.)

The Canadian farm woodlot plays a conspicuous part in the growth of forest products. According to the latest census the total value of products provided by farm woodlots was \$72,000,000, which was over thirty-two per cent of the value of all forest crops. About one-third of the pulpwood used in Canadian pulp-mills comes from farmers' and settlers' holdings.

ANCIENT TOMB IS DISCOVERED IN EGYPT

Cairo, Egypt, May 19.—Discovery of the tomb of Queen Meresankh, a granddaughter of Cheops, builder of the Great Pyramid, has been reported by Professor George A. Reisner, Harvard Egyptologist, who has been carrying on excavations in the vicinity of the Pyramids at Giza.

AMUNDSEN SAYS HE PLANS NO MORE EXPLORATION TRIPS

Calgary, May 19.—"I have no desire to fly over the Atlantic. My work has been accomplished and I am quite finished with exploration now," Captain Roald Amundsen, the famous explorer, declared here yesterday. "You see," he continued, "as he referred to his last trip by airship over the North Pole, 'this trip was really made necessary because of our failure the year before by aeroplane. It was not merely our object to get to the North Pole. We wanted to go farther and find out what lay in the great unexplored area between the North Pole and Alaska. No man had ever been there before.' Now that it has been accomplished, our work is finished. There is nothing left to discover and I do not think I will undertake any more exploration."

NEWS IN BRIEF

Lee Mosley was fined \$15 in the Saanich police court yesterday afternoon by Magistrate Jay for playing an automobile for hire without a license. A charge against Samuel Humphries for driving to the common danger was dismissed.

Rev. A. J. Williams of Nanaimo, B.C., will speak at the afternoon session of the monthly meeting of the Columbia Diocese Board to-morrow at St. Paul's, Esquimalt. At the morning session Miss Turner will give a talk on the missions in the Hawaiian Islands.

Contract for the developing of Unit Number Two of the B.C. University subdivision in Vancouver has been awarded by the Lands Department to the General Construction Company, the lowest tenderer, it was announced to-day.

Owing to the heavy programme, the South Park School Friday evening will begin at 8 o'clock. A sixty-voice choir and a twenty-five piece orchestra, with other artists will provide a good entertainment.

The fire truck from the Duchess Street station mounted the curb at the intersection of Moss and May Streets this morning when answering a fire alarm at 1143 Leonard Street. A locked front wheel was the cause of the delay. The truck crossed the boulevard and came to rest in a vacant lot. No one was injured.

Provincial police headquarters announced to-day that fresh water bass have been out of season for fishermen on Vancouver Island since March 1. Sportsmen who get recreation by fishing in the area are warned that bass fishing is contrary to the Game Act between March 1 and July 15, both dates inclusive.

The regular Monday meeting of the City Council has been cancelled for next week, due to the three-day programme in commemoration of Empire Day. Mayor J. C. Pandray and members of the council met in committee to-day to give further discussion to an item to be prepared by the industrial committee.

A large attendance is expected at the interassembly meeting of the Native Sons and Daughters of Canada to-night, at 8 o'clock at the Sons of Canada Hall, View Street. Mr. Justice Martin will be the chief speaker. He will give an address on "The Culmination of Confederation." A programme of musical items will be rendered. All are cordially invited to attend this meeting.

At a joint meeting of W.B.A. Review in the Eagle Hall, Douglas Street, at 7:30 o'clock to-night, the guest of honor will be Mrs. Minnie Aydelotte, Supreme Lieut., Commander of the Order of the Eastern Star. She will be accompanied by Mrs. Lora W. Baker. There will be a programme from 7:30 until 8 o'clock, and during the evening a class in installation will be given. It is a very special meeting.

The date of the Conservative picnic at Ganges Harbor, which had been planned for July 2, has been postponed and will probably not be held until Labor Day, according to a statement from the Island Conservative Executive. The view of the July 1 celebrations which Ganges is planning, it was thought unwise to detract in any way from this day's interest. A meeting of the executive will be held some time in July to fix the date for the picnic.

The Historical Association of B.C. will hold a field meeting on the site of the old Leechford mining camp, when a large party from this city journeys to that point via the Canadian National Railroad on Saturday, John Howe, Provincial Librarian, will give a talk on the history of the place, pointing out the various old ruins, such as Governor Kennedy's home and the ground whereon the miners built their cabins during the rush of 1864.

Judgment was reserved by Judge Lammman in the County Court this morning on the claim of M. E. Skiffing, operating as the Victoria Baggage Company, against L. B. Bing for work done. Mr. Bing counter-claimed for \$100 alleged damage to furniture in moving it, the act being moved from the small debts court when the counter claim was filed. P. J. Sinnott appeared for the baggage company and W. T. Straith for Mr. Bing.

The annual meeting of the Y.M.C.A. will be held this evening at 8:30 o'clock, when catering for supper will be in the hands of the Ladies' Auxiliary. The agenda will include the president's address and the financial report by A. J. Watson, chairman of the finance committee. R. G. Howell will give the report of the nominating committee, and the general secretary will present his report for the year. The board of directors is composed of eighteen, and each year six members retire. This year eight or nine prominent men have consented to have their names set up for nomination. An attendance prize had been donated by George Straith. In the absence of the president from the city, the chair will be taken by R. W. Mayhew.

James Bay Pastor And Wife to Observe Wedding Anniversary

Mrs. Keyworth left for Vancouver this afternoon to join her husband, the Rev. Thomas Keyworth, pastor of the James Bay United Church, who is attending the United Church conference in Wesley Church, Vancouver. At the close of the conference, she and her husband will start on a motor trip to Hope, B.C., to celebrate the sixteenth anniversary of their wedding. They will return to Victoria at the end of next week.

Wife of Ex-Police Chief of Esquimalt Wins Divorce Suit

A divorce was granted this morning by Mr. Justice Murphy to Bertha Dawley, wife of Herbert B. Dawley, former Chief of Police of Esquimalt, after a short hearing of an undated action. Dawley, it was stated in evidence, is now in charge of the Courtenay Hotel. The couple were married in July, 1911, but have been separated since October, 1925. There are no children. Mrs. F. E. Wells was named as the third party.

YOUTHFUL ORATOR ADDRESSES ROTARY

James Gibson Repeats Prize-winning Speech on Confederation

James Gibson, district winner of the provincial boys' oratorical contest, at Vancouver, addressed the Rotary Club luncheon to-day at the Empress Hotel, giving the remarkable oration on Canada's Diamond Jubilee of Confederation which won him high praise at Vancouver recently.

His well-balanced address, impressively delivered in clear tones, dealt with the history of Confederation, their achievements and patriotism. The progress of Canada, the development of its railways under the direction of men of outstanding genius, was surveyed, and the speaker also touching briefly on the progress of industrial activity.

Canada's contributions to science, ranging from education, medicine and agriculture were recalled, and her part in the Great War was referred to with apt quotations from poets and political leaders, testifying to the glorious labors and sacrifices of the men from the Dominion.

In closing the young orator urged that the best of to-day's education be based on the task of guiding Canada on her way to greatness among the nations of the world.

Miss Nadj Rosell, soprano, of the Capitol Theatre, entertained with a group of solos. District Governor James H. Beatty, leaving to-day for Belgium as delegate from Victoria Rotary Club to the International Rotary Convention at Brussels, briefly addressed the members and was accorded an ovation in farewell.

The Women's Progressive Conservative Club held its business meeting at 731 Fort Street, last evening, the president, Mrs. W. Randall, in the chair. Much regret was expressed at the absence of the secretary, Mrs. W. McAllister, who has been recently undergoing a serious operation, but who is now making good progress towards recovery, and hopes were expressed that she would be able to attend the next meeting. Two new members were proposed and accepted.

The members had a most interesting discussion on "the ways and means of creating a pay roll whereby our own and daughter's would be prevented from crossing the line for employment." One suggestion was the necessity of utilizing Victoria's delightful waterfronts by erecting pier structures which would give more amusement and help to stimulate tourist trade. If such a proposition was placed before some of the wealthy residents and visitors to the city, they might embrace the opportunity, it was suggested.

Arrangements are in hand for a card party and dance to take place during the present month, due notice of which will be given. The president urged the members to use their best endeavors to select good candidates at the next provincial election who will help to the prosperity of their city and province first and not to consider or vote for those who simply think of their own interests.

It was decided to hold a business meeting, the second Tuesday in each month, the next meeting to be held on Tuesday, June 14. The president expressed her sincere regrets at the serious illness of Premier Oliver, and the secretary was instructed to send a letter of sympathy to Mr. Oliver expressing the wishes of all for a speedy recovery of the Premier.

RUMBOAT SEIZURE IS INVESTIGATED

Crew of B.C. Launch Zev Says A. M. Hubbard, Seattle, Broke Law

Seattle, May 19.—Alfred M. Hubbard, youthful electrical expert and recently a Federal prohibition agent, whose single-handed capture of the liquor launch Zev, of Canada, brought him the praise of dry authorities, to-day was accused of too much zeal in his new work.

Hubbard formerly was radio operator and right hand man for Roy Olmsted, convicted "rum king" here. Several months ago he joined the prohibition forces and promised to bring in a whole boat load of liquor.

Several weeks ago Hubbard brought the Zev into port with two prisoners and \$16,000 worth of liquor, which he asserted he was going to bring into the United States.

To-day, however, the enforcement officers learned the prisoners, Lauran Veresken, captain, and Chris Skron, engineer, of the Zev, had reported to the British Columbia authorities that they were not smuggling liquor across the international border, but merely transporting it from Vancouver to Discovery Island, never venturing outside of Canadian waters. They accused Hubbard not only of hijacking, but also of forcing them to violate international customs laws.

They knew Hubbard was a prohibition agent all the time, they said, and let him join them as "crew" because they were not going to cross into United States waters. Hubbard nattered them to the bow of the boat, they charge, but forced them to navigate into United States waters, when Hubbard became lost.

The Zev is claimed by Mrs. R. K. Baltuff of Tacoma, who charges she was awarded the boat when she obtained a divorce from Hubbard, a Canadian and United States authorities are investigating both Hubbard's and his prisoners' stories of the affair.

OWNER RESPONSIBLE FOR MAN AT WHEEL

Judge Lammman Rules in Auto Accident Damage Claim in County Court

The owner of an automobile, riding as a passenger, is responsible for the conduct of the man at the wheel and liable for any damages caused by the driver's negligence, Judge Lammman ruled, in a "served judgment handed down this afternoon.

His Honor awards \$175 damages to A. Miller Shaw, farmer, 444 Transit Road, Oak Bay, who sued Tona Wakabayashi and Kenneth Wakabayashi, employees of the Hines Lumber Company, Duncan, alleging that Kenneth, son of Tona Wakabayashi, owner of the car, forced Mr. Shaw's car over the embankment on Rock Crusher Hill beyond the Maleshat-Shawigan Lake cut-off road.

The claim was for \$225. Defendants counter-claimed for \$198.70. The counter claim was dismissed and the \$175 damages awarded against the owner of the car.

In his judgment Judge Lammman said there was no question about the driver of the car being responsible for the accident, but it was not the driver who was responsible as he was only a passenger in the car. He quotes the approval of the Privy Council to a judge's ruling that the owner of a car not only retains right to possession but also the power and right of controlling the manner it should be driven. The driver must obey the owner and it is the owner's duty to control the driver. If the owner does not, it is a dangerous rate of speed, the owner may become responsible criminally.

Catholic Women Busy on Plans For Summer Activities

The Victoria subdivision of the Catholic Women's League met last evening in the library of the Bishop's house, with the president, Mrs. McManus, in the chair.

In the absence of Miss O'Brien the hospital visiting report was given by Mrs. McManus and Mrs. Sabin was appointed as visitor for the ensuing month. Mrs. Moffatt gave a satisfactory report of the home-cooking sale held on the 14th inst. Mrs. Fletcher told of the progress being made by the St. Louis College Athletic and Welfare Association, and Mrs. B. Reid will be the representative of the Victoria subdivision on the picnic committee for the annual outing of the college boys.

A plea was made for old papers and magazines for the boys who are collecting them. Anyone having magazines and papers in whatever quantity to donate, will be given information upon where to take them by telephoning Mrs. Fletcher, 7054X.

Mrs. O'Neill reported a highly enthusiastic meeting of the Study Club at which many questions had been cleverly discussed and it was announced that any of the members interested would be welcomed on the first Tuesday of June at 8 o'clock, when the next meeting will be held. Papers for the remaining list will be thankfully received by Mrs. Kellagher and Miss O'Brien.

Mrs. Kellagher will be pleased to receive dolls, dresses or to be dressed, and gifts of materials for dressing them in preparation for the forthcoming bazaar. Mrs. Sealing will have charge of the superlatives stall, with Mrs. O'Neill, the fancy work and plain sewing will be taken entire charge by the ladies of the Altar Society. It was decided to have a large chest, this having proved so popular last year.

The annual membership tea at the home of Mrs. Hughes will be held in the second week in June. Mrs. Hughes acting as general convener, and Mrs. Roberts and Mrs. Drevereaux in charge of the refreshments. A garden party will be held in July, arrangements to be completed later. On Saturday morning a rummage sale for diocesan subdivision funds will be held at 617 Johnson Street. At the close of the routine business meeting Mrs. McManus moved a vote of appreciation to Mrs. Charlebois, a valued member of the Victoria subdivision of the league, who is leaving town in a few days for Deep Cove, where she and her family will live in future. Mrs. Charlebois's long record of practical effort in the interests of the league was referred to with gratitude, and a standing vote of thanks and regret at her going even so short a distance from Victoria was passed with applause.

Rev. Father Wood, the speaker of the evening, choosing his own subject, in view of the approaching visit of Sir Rame Howard to Victoria, elected to speak on "Ambassadors to and From the Holy See." Sir Rame Howard had been Ambassador to Rome, Minister Plenipotentiary and Extraordinary, representative of the Imperial Government at the Vatican, as representative to the Holy See. Sir Rame succeeded Count de Salla at the Vatican. At the close Rev. Father Wood was thanked for his interesting address.

Flowers will be sent to Lady Isabella Howard upon her arrival in Victoria, with the good wishes of the Victoria subdivision of the Catholic Women's League.

The funeral of the late Alexander Patt, who passed away at the Royal Jubilee Hospital last Tuesday, will take place to-morrow afternoon, May 20, at 2 o'clock, from the Sands Funeral Chapel. The remains will be laid to rest in Ross Bay cemetery.

The funeral of Miss Alice Henrietta McLintock took place privately from the residence, 1590 Rockland Avenue, yesterday afternoon, at 1:45 o'clock, proceeding to Christ Church Cathedral, where service was held by Rev. Dean Quainton. The following acted as pallbearers: G. A. Henderson, C. E. Thomas, H. Wilson, F. C. Willgress, R. A. Green and R. S. Buchanan. Interment was in Royal Oak Burial Park.

The remains of the late Charles Longue, who passed away in this city while en route from the Philippine Islands, were forwarded this morning to his home at Toward, Pennsylvania, where services will be held and interment made. The B.C. Funeral Chapel had charge of the arrangements.

To-morrow at 8:30 p.m. St. Mark's Girls' Fellowship Club will give a concert followed by the play "Rainbow Kimona."

HORSE RACES AT WILLOWS MAY 24

Tugboat Skippers to Compete For Four Prizes Off Breakwater; Yachts to Follow

The "Empire Day Derby" will be one of the attractions at the Willows on the afternoon of May 24, it was announced by the Empire Day committee to-day. This race will be open to thoroughbreds and will be over a three-eighths mile course and for cash prizes.

Over the same distance will be a race for lady riders for the Tealme trophy, and for which entries have been received already. The final event in the horse racing will be a race for saddle horses over a five-eighths mile course. The best of local horses will be seen at all three races, it is understood.

Also at the Willows on an attractive sports programme will be the judging of entrants in the physical culture contest, with Mainland entries arriving in numbers.

For the first time in pre-war days machine gunners will give the crowds a thrill, when Victoria and Vancouver militia units compete for the trophy held by the Mainland teams. The machine gunners will compete in a novel display, featuring the arrival of the gunners, getting into action, firing with blanks, and other displays. A tug of war between the Victoria Police Force and the Princess Patricia Canadian Light Infantry teams will prove another feature of the Willows meet, and one in which considerable interest is being taken.

Five trophies have been assembled for the tugboat and yacht races, to be held off the breakwater on May 24, at the close of the parade. Col. A. W. R. Wilby, on board the "M. and F." will act as official starter for the tug boats, not less than five of which will compete. Entries are also expected from other ports to compete for the open trophies. The E. B. Marvin trophy, a silver mounted wheel will be put up for the first Victoria tug to cross the finishing line. The race will be filmed by Pathe News Service.

CUP DONATED
A plaque for the best showing on an efficiency basis is also to be presented and this is open to local and outside contenders. The blue pennant, offered by Jeune Brothers, for the winning tug will be confined to local entries. A cup is also donated for outside entries, to go to the best boat outside the port. The efficiency trophy will be won on points for skill in handling and speed, etc., in regard to the tonnage, and class of the vessels competing.

Capt. Charles I. Harris, veteran pilot of the Federal Pilots Association will act as clerk of the course, as well as judge for the efficiency trophy. Capt. Harris will use the Association, a pilot boat, to keep up with the entrants in the race.

A ten-mile yacht race from Cadboro Bay to the Breakwater will also be featured with a cup for the winner. This event will be open to all boats under sail, in a handicap event in which Victoria yachtsmen are helping to put over. The finish of the yacht race will take place after the tugboat contests.

Here is a Pleasant Way to Choose Your Radio---

Go to Hamsterley Lakeside

A pleasant drive in the country (you'll find daintily served refreshment awaiting you) and you can settle down to an evening of real radio enjoyment. This popular lakeside resort has just been equipped with the latest type Rogers Batteryless Radio. It is the only set which operates without batteries, chemicals or aerial. Hear it, if you are interested in radio—we will be glad to learn your opinion.

BASEBALL, BOXING, REAL SMART BACK, FRENCH GIRL FIRST OUTSIDER TO WIN BRITISH WOMEN'S GOLF TITLE; ALL CROWNS NOW GONE, FEARLESS BACK, ATHLETES IN TRAINING FOR ANNUAL FIELD DAY

Rain Causes Fight To Pass Over For One Day

Maloney and Sharkey Will Save Their Punches for Tomorrow Night; Rickard Does Not Like Looks of Raindrops and Orders Bout to Be Held Over for Twenty-four Hours; Both Fighters Are Extremely Confident; Questions Are Being Asked About Dempsey's Come-back

New York, May 19.—The fifteen-round heavyweight elimination bout scheduled for to-night at the Yankee Stadium between Jimmy Maloney and Jack Sharkey, both of Boston, has been postponed until to-morrow night, Promoter Tex Rickard announced to-day.

Rain, that started this morning, was still falling when the announcement of the postponement was made at 11 o'clock. Rickard is counting on an attendance of 60,000 fans, and wants fair weather to get them all in. For once luck was against him in regard to weather conditions.

Maloney, admittedly the harder puncher of the two, has been a slight favorite since the two were matched, but a switch toward the clever and sharp-shooting Sharkey was seen to-day and it looks as if it will be an "even money" battle when they crawl through the ropes to-morrow night.

Before Sharkey mounted high in the heavyweight scale through victories over Harry Wills and Mike McGuire and Maloney battered Harry Person, Frank Dienes and Jack Delaney into submission, the New Englanders clashed three times in Boston. Out of those scrambles in which honors were fairly evenly divided, came the conviction to each man that he was master of the other.

Maloney won the first fight after ten colorless rounds in December, 1924. The next year they met twice and Sharkey won both skirmishes. The record of the first—"four nine rounds"—tells nothing of the bitter battle that ended in one of the most sensational finishes ever seen in a Boston ring. Four times in the eighth round, Sharkey was floored by Maloney's terrific right smashes until he was a wobbling, punch-drunk figure. In the ninth, a low left-hand hook dropped Sharkey again and he was awarded the fight on a foul.

Sharkey outfought and outboxed Maloney to win the "rubber" battle a few months later. Jack's sweeping left hook played a constant tattoo on Maloney's head and body in the closing frames to win him the decision, although Jim always maintained that he was ill the night of the fight.

To-morrow night Sharkey believes that same left hand, now developed into one of the most effective weapons in the game, will wreck Jim's hopes of continuing on to championship heights. Just as it put Harry Wills out of the picture last October, Maloney pined for his crushing right hand, but speed, boxing ability and ring generalship that outclassed Delaney, and an unerring left-hand jab.

The little Lithuanian, training at New Here, has worked down to around 190 pounds of speed and crafty hitting power. Maloney has trained down to 203 pounds.

New York, May 19.—The mystery in Jack Dempsey's come-back—if he does come back—has not altogether been solved by the postponement of his first test until August.

"Why," the critics are asking, "isn't three or four months of conditioning sufficient to put Dempsey in condition to fight around July 1 as originally planned? Is there any lack of the old confidence in his refusal to meet the rugged Spaniard, Paulino, at that time or is the way to a return title bout with Gene Tunney being made easier for Dempsey by his agreement to fight the Sharkey-Maloney winner in August?"

The switch from Paulino to Sharkey or Maloney as Dempsey's first—and only—major preliminary opponent is considered good ballplay for to-morrow's Yankee Stadium battle, but it is mystifying to those who have watched the build-up of the colorful Spaniard as a title contender.

Either Sharkey or Maloney, most critics agree, figure as more formidable rival for Dempsey than the comparatively inexperienced but more rugged Paulino, but the Spaniard's color and his drawing powers have figured largely in Rickard's plans.

There is yet the possibility that Paulino and Delaney may be matched the winners to meet Sharkey or Maloney to determine Dempsey's opponent, but this seems only a possibility now in view of Rickard's altered plans, plus the difficulties in which Paulino and Delaney have become involved with the New York Athletic Commission.

Juvenile And Junior Soccer Teams Receive Trophies And Medals

Juvenile and juvenile soccer teams received their cups and medals at the annual presentation held last night in the Y.M.C.A.

Equimatch juvenile and junior teams were presented with the L.F.F. Trophy by Hon. T. G. Coventry, M.P.P. The Spanish Thistles juvenile eleven received the Sam Lorimer Cup.

Percy Hope, manager of the Seattle Junior club, was presented with the Brown and Dr. Lewis Hall trophies. All the members of the winning teams were presented with individual medals.

For being judged the most useful player in the juvenile league, "Bunny" Robertson, of the Seattle Thistles, was given the B. C. Peets medal.

Frank Groves received a like award for being the most valuable player in the junior league.

ILL WITH PNEUMONIA
Toronto, May 19.—Sir Harry, winner of the Coffsford handicap and star of the Seagrave stable, is very sick at Woodbine with pneumonia. The disease was contracted in shipment from Baltimore.

REAL SMART BACK

WILLIAM MCSTAY

The right fullback of the Scottish football team which will tour Canada this summer is McStey of the Celtics. A two-footed player who has represented Scotland against England at left back. He is an optimist who can never see defeat coming. He is a master of strategy whose positional skill has confounded the cleverest forwards within the United Kingdom. Nervous youngsters in international have been made brave by watching him smile all over his face when the foe was putting up the danger signal. As safe as a house with head or feet. The right man to captain a team as he has done often for Scotland. He made a quick trip to the United States and a quick one back. He was born in Netherburn, Lanarkshire.

TILICUMS HIT TWO PITCHERS HARD AND DEFEAT CRESCENTS

Collecting eleven runs off two pitchers the Tillicums defeated the Crescents 11 to 7 at the Royal Athletic Park last night in a Commercial League ball game. This was the first victory of the clubmen, while it is the third defeat for the Crescents. Due to unsettled weather conditions at Sidner the game between the Tillicums and Spencers was called off. This was a most important battle, as these two teams are now fighting for the leadership of the league. The Crescents game each team scored a run, while in the third the clubmen drove across two more runs. Going on to second place in the fourth inning the Tillicums scored five runs and Behnson on the mound was yanked. To be replaced by Mummery. During the remaining three innings the Tillicums accounted for three more runs, while the Crescents drove six runners across the rubber. The Crescents' pitcher on the mound for the Tillicums allowed eleven hits during the seven innings.

JEWISH SOCCER TEAM TO TOUR DOMINION

Opening in Toronto, May 24, a Jewish team of soccer players known as the Hokenah team of Vienna will tour Canada. The players have recently completed a successful tour of the United States where they drew crowds of as high as forty thousand enthusiastic spectators. This will be their first visit to Canada.

Ruffing and Hartley, Vangilder and O'Neill. R. H. E. Philadelphia 0 0 0. Chicago 9 1 1. Called—rain. Batteries—Quinn, Walberg and Cochran; Blankenship and McCurdy.

COAST LEAGUE

San Francisco, May 19.—Dick Moudy pitched shutout ball yesterday for a 10 to 0 win over the Red Sox. The Senators could do nothing with Moudy, who passed out seven hits scattered over as many innings.

R. H. E. Hollywood 0 7 1. San Francisco 10 13 1. Batteries—Fullerton and Murphy; Moudy and Agnew.

Seattle, May 19.—A homer by Ellisworth with two men on in the fourth, clinched the game against Portland here yesterday, the Indians getting a 6 to 4 victory. Bagwell pounded out a circuit drive in the second, but the bases were empty.

R. H. E. Portland 4 12 1. Seattle 6 12 0. Batteries—Shea, J. Storti and Yelle; Edwards and Schmidt.

Sacramento, May 19.—Oakland took its second straight game of the series from the Senators here yesterday, 4 to 1. Bohler and Vincini put up a good brand of pitching for the most part, but the former weakened in the eighth and gave way to Crashead.

R. H. E. Oakland 4 8 0. Sacramento 1 1 1. Batteries—Berford and Whitney; Piercy, Sanders and Hannah.

Los Angeles, May 19.—The Missions made it two in a row yesterday over Los Angeles, taking the second game of the series 7 to 1. Barfoot pitched the entire distance for the Belts and the Angels were able to connect with only four of his deliveries. They were well scattered.

R. H. E. Missions 7 11 3. Los Angeles 1 1 2. Batteries—Boehler, Crashead and Read; Vincini and Severide.

FRENCH GIRL FIRST OUTSIDER TO WIN BRITISH WOMEN'S GOLF TITLE; ALL CROWNS NOW GONE

Newcastle, County Down, Ireland, May 19.—Mlle Simone Thion de la Chaume, nineteen-year-old French golfer, to-day captured the British women's open golf championship, defeating Miss Dorothy Pearson of Tunbridge Wells, Kent, England, 5 up and four to play in their 36-hole final.

At the end of the first eighteen holes Mlle. de la Chaume was five up. Miss Pearson played well in the afternoon and held her opponent even but could not cut down the lead.

This is the first time in the history of the women's tournament that the title has gone abroad. Last year the men's amateur golf championship went away for the first time when Jesse Sweetser of the United States, won the final. All three British golf championships are now held by outsiders, Bobby Jones of the United States, is the open champion.

Dr. Bryant Elected Captain of Colwood At Annual Meeting

Succeeds "Tom" McPherson as Skipper of Golf Club; Splendid Reports Received

Dr. Frank Bryant was elected captain of the Colwood Golf Club at the annual meeting held last night in the Sprott-Shaw School. Dr. Bryant succeeds T. S. McPherson, who has been pilot of the club for the past two years.

The meeting was one of the most successful held in the history of the club. Excellent reports were presented, which showed the club to have experienced a very profitable year. The finances of the club are in splendid shape.

The club is looking forward to the two major events of the Northwest which are to be held on the beautiful course this summer. The P.W. open and amateur and the women's championships will be held next month and in August the Seniors' Northwest Golf Association will hold their fifth annual championship there. The club has been a very profitable condition for the championships.

THE COMMITTEE
The committee elected for the ensuing year is as follows: J. A. Sayward, Dr. F. M. Bryant, Sir Frank Barnard, W. S. Terry, A. J. Turner, J. L. May, S. S. Helander, J. A. Lindsay, Capt. J. W. Truop, J. H. Richardson and T. S. McPherson.

HORSE RACING

New York, May 19.—Laverne Fator, metropolitan champion jockey, took two firsts and two seconds on the closing day yesterday of the annual Spring meeting at the Belmont Park track. Fator rode Jockey, who won the first and second and third on Mowlee and Copiari and second in the first and fifth on Celdoni and Grange. His victory on Jockey, a 1000 added, one of the day's two headline races.

In the other, the Garden City claiming stakes, the Hamilton Farm, A. S. Terry, rode Jockey, who won the race with a flying start and won. The favorite, McAvillie, was second. The race was worth \$3,150.

At the Akron track Jockey Wall was injured as his horse went through the fence and fell on him in the fourth race.

The track was sloppy at Churchill Downs, and Royal Jockey a good mud horse, took the \$1,700 Merchant's Association purse. At Aurora Jack Alexander with Pendergrass up, flashed home a neck ahead of Florence Mills in the William Bellow Handicap.

Chicago, May 19.—Legalized betting on horse racing in Illinois through the operation of pari-mutuel machines is up to Governor Len Small. The measure legalizing betting was passed by the state senate at Springfield yesterday by a vote of 26 to 25, and will become law if Governor Small affixes his signature to it, as supporters of racing believe he will do.

The bill is an amended document that puts control of horse racing under the director of agriculture, who is empowered to issue licenses. Racing is limited to the period between May 1 and November 1 with each track permitted only one meeting a season, and that not to exceed fifty days. Sunday racing is barred.

Pari-mutuel betting is limited to the period between noon and 7 p.m. on racing days. This clause his greyhound racing at night as does nothing in the bill shall be construed to mean racing of any other sort except that of horses. There are three greyhound racing tracks in operation around Chicago at present with two others making plans to open.

Players Fined

New York, May 19.—Five players of the Buffalo and Buffalo teams of the International League have been fined for their part in the riot that marked Tuesday's fourteen-inning game at Buffalo.

Mickey Devine, Buffalo catcher, was fined \$75. Huber the Bisons' third baseman, drew a \$25 penalty and other \$25 fines were imposed on Branch, Moley and Lawrie of Toronto.

TIRES RECORD
Toronto, May 19.—"Bus" Haugh of the West End Y.M.C.A. here tied the world's record held by Miss Dorothy Johnson of Edmonton, Grade, for scoring foul throws in basketball when he made fifty-two out of sixty tries.

TRAVELERS TO MEET EAGLES AT ATHLETIC PARK THIS EVENING

A good ball game is looked for to-night at the Royal Athletic Park. The Travelers and Eagles provide the opposition in a senior amateur league fixture. The teams will get into action at 6.15 o'clock with "Allie" McGregor in charge.

Jack Noble and Johnny Kerr will be the rival pitchers, with the former checking for the samplemen and the latter for the Eagles. The Eagles will be hot after a victory. If they win it will mean advancement to a tie for the league leadership along with the Travelers. The club, under the wing of Bobby Ross, have so far this season chalked up one victory at the hands of the Travelers. To-night the Eagles will seek sweet revenge.

Ray Copas, playing manager of last year's champions, is quite confident his team will come through with a win. The boys held a strenuous workout on Tuesday night and every member of the team is right on his toes.

Rifle Shooting

There was a good turnout of marksmen at the midweek shoot of the Victoria and District Military Rifle Association yesterday afternoon at the Heald's Ranges. A heavy rain and a blustery wind made shooting difficult at both 400 and 600 yards marks.

At the 400 yards mark the scores were as follows: 300 500 600 T. C. M. S. D. Fyvie 35 31 34-100. S. Sgt. W. B. McKay 35 32 31-98. Arm. T. S. Evans 35 32 31-97. S. M. E. Durling 35 30 30-95. G. N. Perry 34 30 29-93. Capt. W. E. Tapley 32 29 29-90. G. N. Nesbitt 32 31 27-90. P. J. Edwards 28 27 30-85. Capt. J. McLean 32 28 25-85. P. Porter 25 29 29-83. R. O. W. Taylor 28 30 23-81. A. B. Duncan 30 26 24-80. R. McIntosh 26 23 28-78. L. B. McLaughlin 26 26 26-78. A. B. Sullivan 24 26 23-73. Sig. J. A. Betts 20 25 27-72. G. N. J. Duke 28 29 25-72. P. J. Fleming 20 28 23-71. R. W. Thurgill 34 22 14-70. P. A. T. Lashin 20 21 24-65. P. J. Hall 23 19 23-65. P. N. O. DeWitt 20 27 18-65. W. J. Roach 24 17 17-58. P. A. T. Lashin 22 17 17-58. Sgt. W. S. Lewis 19 12 retired. Sgt. N. T. Crease 16 21 retired. G. N. J. Mayar 13 16 retired. G. N. J. Mayar 13 16 retired. Sapper Hutchinson 27 31 retired. P. A. Smith 25 25 retired.

Japs Name Team

Tokio, May 19.—Yoshiro Ota, winner of last year's all Japan tennis championship, has been named third member of the Japanese Davis cup team. Harada and Teizo Toba, Japanese stars, who made a brilliant record last year have already been selected. The fourth member will be selected shortly.

Yorks Beat Worcester

London, May 19 (Canadian Press Cable).—Yorkshire won its cricket match 400 and 600 yards at Leeds to-day by an innings and 164 runs. The scores: Yorkshire 291, Worcester 46 and 81.

Makes Good Break

London, May 19.—A break of 1314 including 533 "pendulum" cannons, was run up by Carpenter, playing a match with Tom Newman, professional billiards champion, here yesterday. The match is 7/20 points up and Newman is conceding Carpenter 2,800 points.

Yorks Beat Worcester

London, May 19.—Abie Mitchell, champion golfer and captain of the United Ryder Cup team, is still ill and grave doctors are expressed whether he will accompany the team of professional golfers which will sail for the United States on Saturday to defend the cup.

FEARLESS BACK

THOMAS SCOPE

Another of the fullbacks to visit Victoria this summer will be Scott, who comes from the Falkirk Club. He is a defender of fearlessness and dash. He goes into the tackle with snappish force and generally times his intervention to the fraction of the second. He played a heroic game in the Scottish cup tie matches this year with the Rangers, with whose defeat he had a considerable share. The more famous the opposition, the better he plays. He was born in Denny, Stirling-shire.

Bays Open Cricket Season With a Win Over T.V. Eleven

First Game in Wednesday League Produced One Half-century Score

Haines, captain of the Hudson's Bay cricketers, led his merry men to a victory in the Wednesday Cricket League yesterday, their victims being the Tracy-Verrall eleven. It was the opening game of the mid-week league and the final scores were 125-83.

The Bays' total included one respectable score and two fairly good ones. Haines carried his bat to the half-century mark and was then run out. Shrimpton was next with 29 and Oakman contributed a 27.

The T.V. eleven were rather feeble at the bat and none of their scores reached twenty. Cox, with 18, was best while Wallace and Donaldson were the only others to break into double figures. Haines with three wickets for 14 runs and Hansen with two for 12 were the best bowlers. The scores were:

Athletes In Training For Annual Field Day

Victoria High School Will Stage Sports on June 2; Splendid Athletes at School This Year and Many Records Are Expected to Topple; Coaches Are Busy Working on Runners and Improving Their Form; Girls Especially Keen Over Meet; Programme Is Long and Varied

On the Victoria High School campus, hopeful young athletes in spikes and heavy sweaters are working out practically every day, in preparation for the great field event of the year—the annual sports meet. The date of this competition has been set for June 2 and will be held at the Royal Athletic Park.

Among the ranks of senior students are some fast men, who may turn in performances which will shatter present records, men with sturdy legs who threaten the high and broad jump records, and others who can reel off the laps in the longer races, the half-mile and mile. Young Smith, the blond runner from Eastern Canada whose speed on the rugby field made him a marked man during the season; Cudlip, a Westerner, with long legs, talked of as a possibility for the mile; Pete Turgoose, who is said to be able to run circles around most of his rivals in either the long or short distances, are among the shining lights. Grothall, whose wrenched knee may keep him from running, but whose ability of the past would make him an outstanding contender this year if he completes. Kennedy and Kersey, the distance men, and Nicholls, good all round, are also carded to perform.

The High School may surprise itself with the material it produces this year, according to old track men who know material when they see it, and who have heard of his scouting activities, youngsters through the year. The physical training expert, "Doc" Roper, is confident that there will be plenty of fast stuff out on the track this year. There is hope, he thinks, of records falling by the wayside.

LOOKS "EM OVER
"I've been watching the boys," says Peter Marr, the big colored trainer who helped Fred Kenny and "Tex" Clark to win distances of races. Clark won the High School championship once—last year—himself. Kenny went over to Vancouver from the High School and won every event he entered in the Vancouver police sports. "And they've got men as good as Kenny in the sprints and men better than Clark in the distance, and they ought to make good."

Peter Marr was a university coach. He lives in Seattle now, but every now and then he comes to Victoria in the course of his scouting activities, and watches for track men and football stars, to send off to his universities to be developed into great athletes. Marr hopes to see the annual High School meet this year.

THE PROGRAMME
The list of events for the June 2 field and track day are as follows:

Girls	
75 yards, intermediate.	
High jump, junior.	
80 yards, junior.	
Shot put, open.	
75 yards, senior.	
High jump, intermediate.	
Basketball throw, senior.	
120 yards hurdle, junior.	
60 yards hurdle, intermediate.	
60 yards hurdle, senior.	
Basketball throw, intermediate.	
High jump, junior.	
Basketball throw, open.	
Relay races.	
100 yards, intermediate.	
High jump, senior.	
120 yards hurdle, junior.	
220 yards, intermediate.	
High jump, intermediate.	
220 yards, senior.	
Shot put, open.	
440 yards, senior.	
Broad jump, senior.	
High jump, junior.	
120 yards hurdle, intermediate.	
120 yards hurdle, senior.	
One mile, open.	
440 yards, intermediate.	
Broad jump, junior.	
Basketball throw.	
Relay races.	

The physical instructors are Miss Betty Rice and William Roper. All entries must be in by 4 p.m. Friday, May 20, and contestants will be notified by 7 to one of three classes. Junior, of 14 years or under; Intermediate, 16 years or under, and senior, 18 years or over.

The Oak Bay public schools will hold their annual track and field day on Monday next at 1.45 o'clock at the Oak Bay Park.

Seventy events are on the programme, as well as the nine challenge cup contests. The officials will be as follows: Starters—W. Brynjolfsson, Miss Cathart, Miss Cooke, Miss Wollaston, Mrs. Wollaston and Mr. Patterson. Judges—Hon. Dr. J. D. MacLean, Mr. McConnan, Mr. Curtis, Miss Creeden, Miss Bradshaw, Mr. Gospel, Mr. Burnell and Mr. Murdoch.

Friday of next week the Oak Bay Schools' Athletic Association will hold their annual meet for shield events at Oak Bay Park. The contests will be open to boys attending either private or public schools.

C.P.R. Tennis Club Plans Opening Day

The official opening of the C.P.R. (Victoria) Tennis Club will be held on May 22.

In the morning the courts will be open to all members, and in the afternoon an American tournament will be held, following which tea will be served by the ladies. All members are asked to attend.

BEDTIME STORY

Uncle Wiggily and the Snail Race

Copyright, 1927, by McClure Newspaper Syndicate

(By Howard R. Garis)

There was great excitement in Woodland, near the Orange Ice Mountains, where Uncle Wiggily had built his hollow stump bungalow. The Lady Mouse Teacher had declared a holiday from school, so the boys and girls could see what was going on. Mr. Longears and his friends had laid aside their work to flock out to the hill at the end of the rabbit gentleman's carrot patch.

That rabbit is going to lay a trick, grunted the pig.

"I think Mr. Slump will win!" blurted Uncle Butter, the goat. "I'm afraid so, as he is said to be very fast," grunted Mr. Twistytail, the pig gentleman. "But I wish Glump would win. He isn't so proud as Slump."

"True enough," agreed Mr. Bow Wow, the dog gentleman. "But this race will be to the one who can first crawl to the top of the gravel hill and back to the starting point, where Uncle Wiggily sits on a toadstool. It is about ten feet each way, maybe a bit more, but say twenty feet in all."

"And Mr. Slump can crawl it in a

Twistytail. "We don't want to miss any of the race."

"There is no hurry!" chuckled Uncle Butter. "The race will last all day—fifteen hours. We have plenty of time!"

It was the day of the great race between Mr. Slump and Mr. Glump, the two snail gentlemen. When Uncle Wiggily heard how proud Slump was, because he had crawled over the gravel hill and back, a distance of about twenty feet, in fifteen hours, ten minutes, three and four-fifths seconds, the rabbit said Mr. Glump could do it better.

"Nonsense! He never can!" cried Slump, sticking his horns out of the

shell house on his back. "I'll race him to see who is the fastest."

"You will lose!" chuckled Mr. Longears, and so the great race had been arranged. No one liked Mr. Slump because he was so proud of how fast he could crawl. Nearly everyone hoped Mr. Glump would win the race, but few thought he could.

Unless Uncle Wiggily did something! And you never could tell what that rabbit would do. Just before the race Uncle Wiggily hopped over the course. He spent some time on the top of the little hill, and when he came back he smiled and said everything was ready.

"Take your places," called the rabbit, and the two snails crawled into

line. "Get ready! Go!" He burst a blown-up paper bag, which was the signal gun, and the two snails started off. The animal boys and girls, as well as the older folk, had brought their lunches along to stay all day, for Slump was ahead, and then he began going slower and Glump took the lead.

"Hurry, Slump! Hurry!" called the proud snail's friends. "Oh, there is plenty of time!" said Mr. Slump, slowly. "He can never beat me. Let him get to the top of the hill first. It is coming back where I make my best speed."

Some time in the afternoon the two snails, with Mr. Glump ahead, reached

the top of the hill. They were lost to sight for a while.

"Now comes the home stretch!" grunted Mr. Twistytail, dancing around on one leg for his ear had gone to sleep. "This is exciting!"

Slowly one snail crawled back over the top of the hill and began coming down to the starting point.

"Who is it?" bleated Uncle Butter. "It is Glump!" was the answer.

"Where is Slump, the proud, fast snail?" asked Mr. Bow Wow.

"He's stuck in a lot of molasses on top of the hill!" answered Sammie Littletail, who hopped up to take a look. "Mr. Slump can't crawl out of the sticky molasses that he crawled

into. I guess Mr. Glump will win the race! Hurray!"

And so it happened. By night, when Glump finally crawled to the starting point, Slump, the proud snail, had only just managed to get out of the molasses and was starting down hill. He had lost the race, also his pride, and he crawled off into the dew-wet grass to get rid of the molasses that stuck to him and made him so slow.

"Hurray! Hurray! Glump wins the great race!" everybody cried. And never after that was Mr. Slump too proud. "What's that? Who spread the molasses on top of the hill to tangle the proud snail? Oh, I wouldn't dare tell. But perhaps you can guess. And if the butter doesn't hide in the

appleauce when the bread chases it around the table I'll tell you best about Uncle Wiggily and The Proud Snail.

STUDENTS NOT AIRMEN

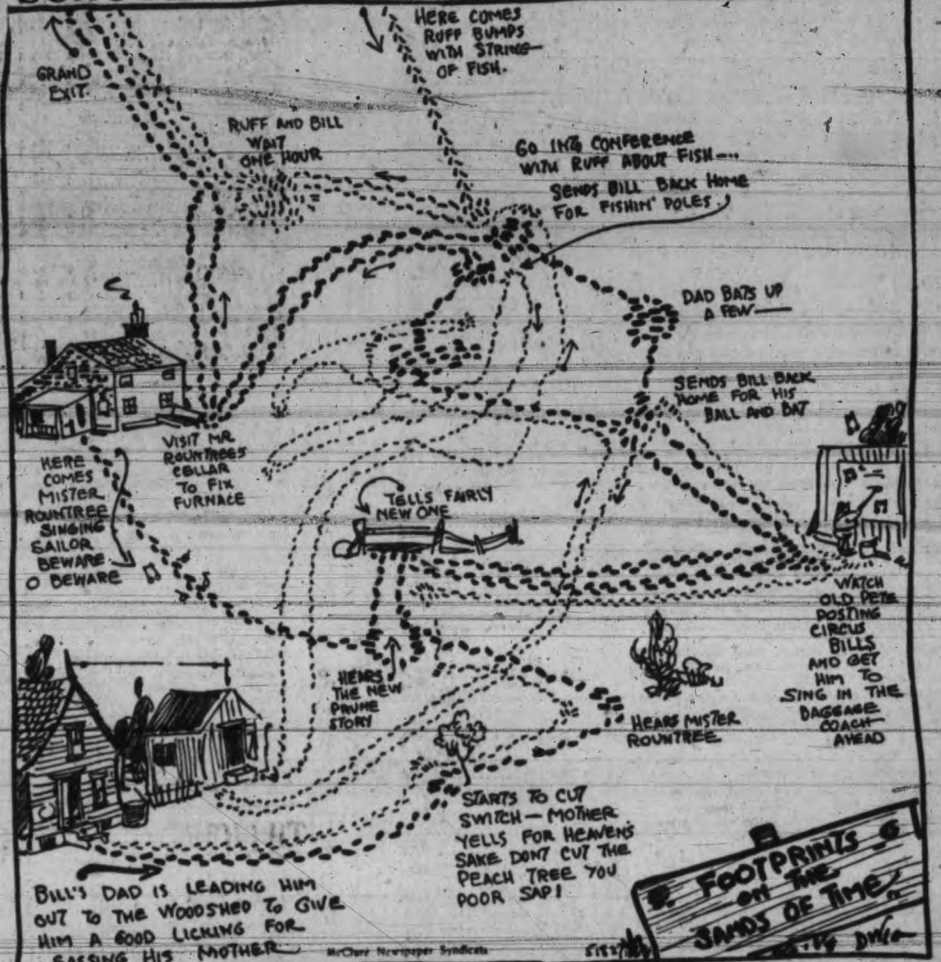

Oxford, Eng., May 19.—Hundreds of Oxford undergraduates were lined up for their turns at a trip in an aeroplane at the aviation field here yesterday when proctors appeared and ordered them off the field. The students protested at being forbidden to fly and the proctors took many names. It is reported many disguised themselves as workmen and made flights later in the day.

FINANCIAL — STOCKS — GRAIN — BONDS — MARKETS

Wall Street TO-DAY

Last Minute News on Stocks and Financial Affairs

New York, May 19 (By R. P. Clark & Co.)—Dealings were on a large scale to-day and fairly well distributed. Issues that have been prominent on the advancing side were again the leaders and new high prices for all time were established in General Motors and Baldwin. In the afternoon the market turned easier under weight of realizing sales, but the tone at the finish was firm.

The petroleum shares were lower and talk persists that some of the producing companies may have to do some new financing in the near future. Liquidation continues in the oil pits, and it seems to be the general opinion that this group of stocks may have to contend with more liquidation for some time to come.

The utility stocks showed some animation on the upside. Many important companies in this line of endeavor are expected to establish very good earnings this year. The market is a distinctly discriminating one, and where certain issues may make progress in an upward direction the shares of other companies may tend downward. Specific influences are guiding the movement of values.

New York, May 19 (By B.C. Bond Corporation's direct Wall Street wire)—The Wall Street Journal's stock market edition this afternoon says: Although the pace on the upside was moderated to-day, the main body of stocks continued to display a strong tone, and further gains were scored in many sections of the list.

Carloadings in the week ended May 7 again exceeded the million mark, demonstrating that general business was maintaining heavy volume, while call money continued in good supply at 4 per cent notwithstanding withdrawal of about \$14,000,000.

These factors were reflected in undiminished confidence on the part of the market, and despite the heights they had been carried to by recent sweeping advances.

Considerable nervousness was in evidence in speculative quarters as a result of the high level of prices, and this apprehension caused profit-taking on a large scale, which increased in volume in the latter afternoon.

After General Motors had sold fractionally above 200, professionals figured that the objective in this issue had been attained. As a consequence they offered the stock freely, forcing it down more than a point from its high.

Several stocks continued to advance rapidly with Pittsburgh and West Virginia a feature of the advance. A considerable mystery was attached to the sensational uprush in this stock.

It was not based on earnings as surplus after charges last month showed a decrease of fifty per cent from the corresponding period of 1926, and many authorities feel the road will do well to earn \$5 a share in 1927 if the coal strike continues. Neither could it be attributed to buying for control in the open market as control is already owned by F. E. Taplin of Cleveland.

As a matter of fact the situation affecting Pittsburgh and West Virginia is so adverse that some people figured its advance was due to the fixation of an over-extended short interest. Stocks maintained a strong tone through the late morning and further gains were made in many sections of the list around noon.

Steel common was held back by a drop in the Dow Jones average price of steel products to \$49.90 a gross and low demand, however, and noteworthy advances took place in several issues of this class.

William C. Durant was reported to have resumed bullish operations in American Smelting. General Electric was also in favor. Mack responded to an order for forty-five large trucks from Warren Bros. by spiriting to 118.

Stocks turned extremely dull when reactionary tendencies developed in the early afternoon. It was evident that no important liquidation was buying was ready to take advantage of price recessions.

Goodyear Issues \$60,000,000 Bonds

New York, May 19.—Dillon, Read & Company are launching to-day a \$60,000,000 issue of thirty-five per cent bonds of the Goodyear Tire & Rubber Company. The bonds are offered at 97 to yield 5.15 per cent.

CLAIM VESSEL WAS SEIZED IN CANADA

Crew of Craft Zev Say Boat Not in United States Waters

Claim A. M. Hubbard, Dry Agent, Piloted Vessel Over International Line

Seattle, May 19.—Complaint that United States Dry Agent Alfred M. Hubbard of Seattle, in his recent capture of the run boat Zev, seized the vessel, its two-man crew and \$16,000 liquor cargo, not in United States but Canadian waters, has been made by Laurent Verreen, captain, and Chris Skronald, engineer of the vessel, the Post-Intelligencer said yesterday.

Sworn statements by Verreen and Skronald, it is said, have been laid before high authorities for investigation. The Canadian Government, it is understood by the Post-Intelligencer, has intimated to the two men that it will entertain any move they desire to make towards securing a formal complaint against Hubbard, demanding his prosecution.

Whether they will make counter charges against their captor in Canada could not be learned last night. Their attorney, John J. Sullivan, retained to defend them against Hubbard's charges, has refused to make any statement concerning his client's affairs.

According to Verreen and Skronald, however, Hubbard's story of his capture of the Zev and himself, May 1, was almost entirely fiction. They deny that he took them after a "desperate hand to hand struggle" or that there was any struggle at all, and that the affair happened in American waters.

PRINCESS MARY, DUE TO-DAY, TO BE OVERHAULED

Ss. Princess Mary will arrive here this afternoon at 5 o'clock from West Coast points on her final trip until the summer schedule commences on June 23. She has been replacing the Princess Maquina, which has been undergoing her annual overhaul. The Mary will be hauled out at the Victoria Machinery Depot to-morrow morning for overhauling preparatory to entering the summer west coast service.

WILL INVESTIGATE CAPE SCOTT LIGHT

Lighthouse or Beacon at Northern Tip of Island Considered

To take supplies and apparatus to lighthouses and life-saving stations along the coast, the lighthouse tender Estevan will leave here to-morrow on a trip around Vancouver Island. She will go north up the West Coast, returning along the east side of the island.

The Estevan has been taking on cargo of various sorts at the Government dock in the inner harbor during the week and when she sails will have on board, in addition to supplies for lonely lighthouse keepers on the coast, technical apparatus for wireless stations, new machinery and distillate for engines.

While at Banfield and Tofino improvements will be made to the life-saving stations, several alterations being now planned in order to increase the efficiency of these very important marine establishments.

The Estevan will later be joined near the north of the island by Col. A. W. Wilby, agent for the Federal Department of Marine, who will investigate the advisability of erecting a lighthouse or unwatched beacon at Cape Scott, the most northerly tip of the island.

CHINESE FOR B.C. ON SS. TYNDAREUS

Blue Funnel Liner Brings 220 Chinese and Two First; Here This Morning

Staying in port just long enough for fifty-three Chinese to disembark, the Blue Funnel liner Tyndareus called here this morning at 3 o'clock, inbound from Japan and China ports. She sailed again for Vancouver at 6 o'clock.

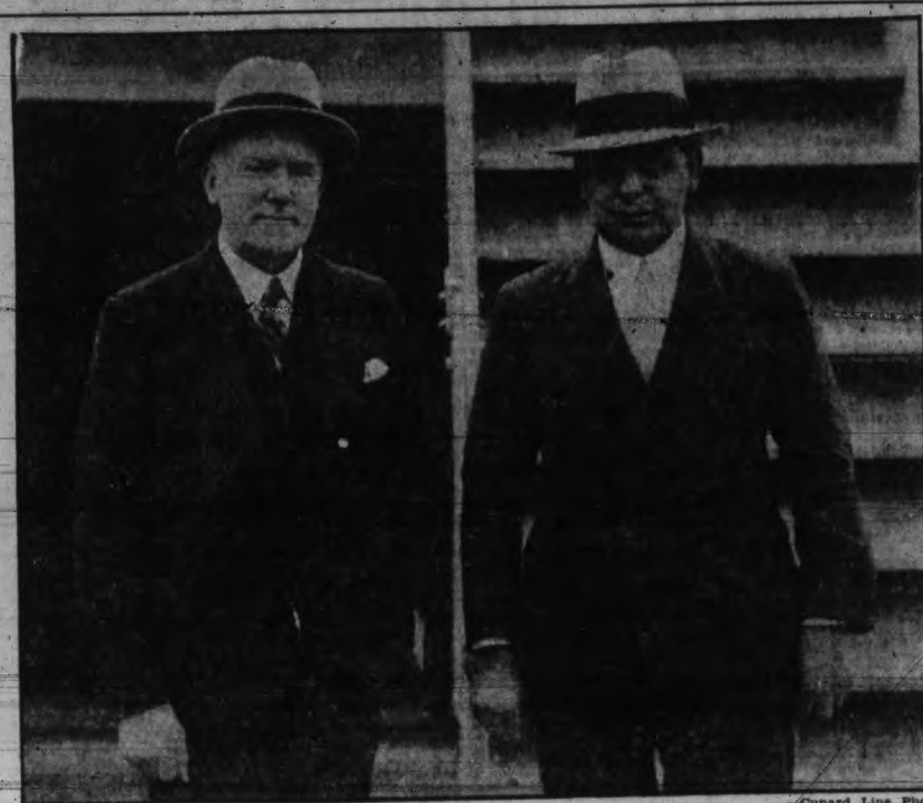

The Tyndareus had a total list of 223 passengers. Of these there were 215 Chinese for British Columbia, 106 being for Vancouver and forty-nine for Victoria. Five Chinese for Seattle disembarked here. There were also two first-class passengers on board for Vancouver.

The vessel dropped off 196 bags of mail at this port and five for airmail transportation to Seattle. She had a fair cargo on board, including 500 kina general and 3,592 bales of silk for Vancouver.

Vessel Aground Off California

Eureka, Cal., May 19.—The steamer Indiana Harbor, a vessel of 1,600 tons, was aground at a point ten miles south of Point Gorda, south of here, early this morning, and was awaiting assistance from the steamer Hauraki, which sped through the night to her aid. The Indiana Harbor is in the McCormick Steamship Service, was bound from San Francisco to Portland.

TO AID IN CONSTRUCTION OF AIRSHIP TOWERS

MAJOR G. H. SCOTT.

A. R. GIBBS.

Cunard Line Photo.

experts in aerial navigation and construction, who arrived in Montreal recently aboard the Cunard liner. Major Scott and Mr. Gibbs will act in an advisory capacity in connection with the erection of the proposed airship mooring towers, which will be necessary in the establishment of the airway linking the whole of Canada.

MILLION TIMBER DEAL IS REPORTED

Aberdeen, May 19.—Under the terms of a deal, reported to be consummated, but which the Schaefer Brothers Logging Company, one of the parties concerned, refuses to confirm, the Schaefer Company is said to have bought all of the timber holdings, logging equipment, railroad and camps of the National Lumber and Manufacturing Company in the Cedarville, Balch and Garwood Creek districts, for a price said to be in excess of \$1,000,000.

The deal includes more than 200,000,000 feet of standing timber, twenty-five miles of railroad, locomotives and rolling stock, donkey engines and the complete logging and camp equipment of the National Company in that district.

Not only does the deal give immediate control of 200,000,000 feet, but it will open, it is said, to logging approximately 1,000,000,000 feet and provide indefinite operations.

JAMES PATTERSON, Purchasing Agent, Victoria, B.C., May 16, 1927.

GOVERNMENT PROPERTY FOR SALE

Tenders will be received by the undersigned up to noon, May 21, 1927, for the purchase of one 16 h.p. heavy duty, jump pump engine, two-cylinder Marine Engine, built by the Ideal Engine Works of Vancouver.

The engine may be seen at Armstrong Bros. Machine Shop at Victoria.

The highest of any tender not necessarily accepted.

JAMES PATTERSON, Purchasing Agent, Victoria, B.C., May 16, 1927.

PUBLIC SCHOOL DESKS

SEALED TENDERS, superscribed "Tender for School Desks," will be received by the undersigned up to 11 o'clock noon of Saturday, the 14th day of May, 1927, for supplying the following desks:

Single Desks: 100
Size No. 1 400
Size No. 2 400
Size No. 3 400

Double Desks: 100
Size No. 1 400
Size No. 2 400
Size No. 3 400

The desks are to be quoted at a price per desk. The name of the desk and maker to be mentioned in tenders. Delivery at Victoria or Vancouver on or before 31st day of July next.

The successful tenderer will, free of any additional charges, store the desks and pack or crate ready for shipment to order to places to be hereafter designated from time to time.

No tender will be entertained unless accompanied by an accepted cheque on a chartered bank of Canada, payable to the Minister of Education, or by cash, in the amount of Two Hundred Dollars (\$200.00), which will be forfeited if the party tendering declines to enter into contract when called upon to do so, or if he fails to complete the contract.

Cheques of unsuccessful tenderers will be returned upon signing of contract.

The lowest or any tender not necessarily accepted.

JAMES PATTERSON, Purchasing Agent, Parliament Buildings, Victoria, B.C., April 28, 1927.

NOTICE TO CREDITORS

Notice is hereby given that all persons having any claims or demands against the estate of Richard William Perry, who died on December 6, 1923, are required to send by post prepaid or deliver to the undersigned, executor of his estate, or by declaration, and take notice that after June 15, 1927, the executor will proceed to distribute the assets of the said deceased among the persons entitled thereto having regard only to the claims of which she shall then have had notice.

W.I. CONFERENCE URGED TO STUDY PIONEER WOMEN

(Continued from page 8)

ers although those women were not aware that they were doing anything of enduring importance.

COMMERCIAL SEED GROWING

"A great deal of spade work in laying the foundation for commercial seed growing has been accomplished. The keen interest among women for this phase of agriculture is very gratifying, indeed, and each year finds women taking up special lines of production with success. Parts of British Columbia are especially adapted for seed, bulb and flower growing and there is no reason why we women should not play a very large part in helping to make this Province the little Holland of Canada, with profit to ourselves."

These were the words of Mrs. E. H. Tomer in presenting a report as chairman of agricultural committee of the Women's Institutes at Wednesday's afternoon session.

Mrs. Tomer said: "Agricultural prospects never looked brighter. We must look forward, not backward, and endeavor to help ourselves and one another more and more. We need a greater spirit of co-operation in our rural communities, and our women's institutes are an ideal agency to promote and foster this spirit."

Schooner Everett Hays Sinks With Valuable Cargo

Dutch Harbor, Alaska, May 19.—The historic schooner Everett Hays, last of the Unalakleet fleet, sank yesterday after striking a submerged reef near Unalakleet, off Unalakleet Island, in a heavy gale and snowstorm. The master and crew were rescued and taken to Dutch Harbor by the United States coastguard cutter Haida.

A valuable cargo of blue foxes went down with the schooner. The vessel, equipped with Diesel engine was owned and operated by A. C. Goss of Dutch Harbor.

Vessel Seized With Large Liquor Cargo

Portland, Me., May 19.—Loaded with 667 gallons of alcohol and assorted liquors valued at \$10,000, the two-masted schooner Carrie Hirtle, out of Lunenburg, was towed into Portland last night by the patrol boat Antedam.

Boarded off Libby Island, not far off the coast of Machias, by the coastguard crew, the vessel was taken without resistance. It was indicated that only part of the shipment remained aboard, the rest having been sold on the way down the coast.

The Carrie Hirtle, according to coastguard officials, has been watched for months and evaded the patrol numerous times. Her capture removes an old-time rum-runner from the coast, the guardsmen report.
